Animals Men:

Animals, Men, and Myths Richard Lewinsohn, 1954 **Of Animals and Men** William Bixby, 1968 A comparative study of human and animal behavior which shows that animals are not as inferior to humans as commonly believed For example men kill each other but tigers don't

The Rights of Nature Roderick Frazier Nash, 1989-01-17 Charting the history of contemporary philosophical and religious beliefs regarding nature Roderick Nash focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His account makes history come alive Sierra So smoothly written that one almost does not notice the breadth of scholarship that went into this original and important work of environmental history Philip Shabecoff New York Times Book Review Clarifying and challenging this is an essential text for deep ecologists and ecophilosophers Stephanie Mills Utne Reader

The Free Animal Lee MacLean, 2013-10-28 Free will is a key but contested concept in the work of Jean Jacques Rousseau while the famed philosopher is known to have asserted that free will distinguishes human beings from animals several interpreters have argued that he merely pretends to have this belief for the sake of healthy politics and to avoid persecution by religious authorities Through careful readings of key texts and letters The Free Animal offers a new and original exploration of Rousseau's views on free will Lee MacLean shows that Rousseau needs and uses the idea of human consciousness of free will to explain the development of morality convention and vice MacLean bases her argument on a broad range of texts from canonical works to Rousseau's untranslated letters and drafts Featuring careful analyses and an extensive engagement with the secondary literature The Free Animal offers a novel interpretation of the changing nature and complexity of Rousseau's intention

Are Men Animals? Matthew Gutmann, 2019-11-12 Boys will be boys the saying goes but what does that actually mean A leading anthropologist investigates Why do men behave the way they do Is it their male brains Surging testosterone From vulgar locker room talk to mansplaining to sexual harassment society is too quick to explain male behavior in terms of biology In Are Men Animals anthropologist Matthew Gutmann argues that predatory male behavior is in no way inevitable Men behave the way they do because culture permits it not because biology demands it To prove this he embarks on a global investigation of masculinity Exploring everything from the gender bending politics of American college campuses to the marriage markets of Shanghai and the women only subway cars of Mexico City Gutmann shows just how complicated masculinity can be The result isn't just a new way to think about manhood It's a guide to a better life for all of us

The Naked Man Claude Lévi-Strauss, 1990-11-08 The Naked Man is the fourth and final volume of Mythologiques written by the most influential and probably the most controversial anthropologist of our time Myths from North and South America are set side by side to show their transformations in passing from person to person and place to place a myth can change its content

and yet retain its structural principles Apart from the complicated transformations discovered and the fascinating constructions placed on these the stories themselves provide a feast Betty Abel Contemporary Review L vi Strauss uses the structural method he developed to analyze and decode the mythology of native North Americans focusing on the area west of the Rockies The author takes the opportunity to refute arguments against his method his chapter Finale is a defense of structural analysis as well as the closing statement of this four volume opus which started with an Overture in The Raw and the Cooked Library Journal The culmination of one of the major intellectual feats of our time Paul Stuewe Quill and Quire
