## **Animation Principles With Flash 5:**

**Flash 5 Visual Insight** Sherry London, Dan London, 2001 London's in depth guide teaches the fundamentals of Flash 5 while focusing on projects that show the full range of its capabilities. It appeals to visual learners who need to see rather than read how to create something. *Flash 5 Hands-on Training* Kymberlee Weil, Garo Green, Lynda Weinman, 2002. *Flash 5 Hands on Training* is a tutorial based learning tool for beginning Flash designers from Lynda Weinman's best selling Hands on Training series. With no prior experience using Flash users will be led through a series of exercises that start quite simply and increase in complexity until they have learned how to use all of the basic tools in Flash 5. Beginning with the drawing tools users will learn how to create art and basic shape tweens, convert their art to symbols and then create motion tweens and gradually build more complex animations and buttons by learning how to use multiple scenes, layers, movie clips and the basic ActionScripting features that ship with the program. Like the other books in the Hands on Training series this book comes with a companion CD ROM that includes a trial version of the software, the complete exercise files and QuickTime movies featuring demonstrations from the authors. **Flash 5 in an Instant** Michael Toot, Sherry Kinkoph, 2001. Are you a visual learner who needs results right away? Do you prefer to focus on the essentials and skip the bells and whistles? If so then this book is for you. Open it up and you'll find extra large step by step screen shots that show you how to tackle over 100 key Flash 5 tasks from drawing a custom line and adding text to creating a motion tween and assigning button actions. Fast coverage of the essentials helps you get right to work. Focused two page lessons cover a single task. Visual format shows you step by step how it's done in an instant. Your books are extraordinary. I buy them for friends, family and colleagues. Christine J Manfrin, Castle Rock, CO. *Flash 5* Howie Green Design, Howie Green, 2000. Covering both Mac and Windows this title takes a visual approach to creating outstanding projects with Flash 4. A perfect format for novices and professionals alike it goes beyond the normal Flash tutorials taking users through various Flash basics and then uses applets on the CD ROM to show users how they were created. **Animation principles with flash 5.0** Chris Casady, 2001.
