**The Position of the German Language in the World** Ulrich Ammon, 2019-08-08 The Position of the German Language in the World focuses on the global position of German and the factors which work towards sustaining its use and utility for international communication From the perspective of the global language constellation the detailed data analysis of this substantial research project depicts German as an example of a second rank language The book also provides a model for analysis and description of international languages other than English It offers a framework for strengthening the position of languages such as Arabic Chinese French Portuguese Spanish and others and for countering exaggerated claims about the global monopoly position of English This comprehensive handbook of the state of the German language in the world was originally published in 2015 by Walter de Gruyter in German and has been critically acclaimed Suitable for scholars and researchers of the German language the handbook shows in detail how intricately and thoroughly German and other second rank languages are tied up with a great number of societies and how these statistics support or weaken the languages functions and maintenance

**Education Pack "all different - all equal"** Pat Branders, Carmen Cardenas, Juan Civate Abad, Rui Gomes, Mark Taylor, 2016-12-19 It is easy to say I have no prejudices I m not racist so it has nothing to do with me I didn t invite those refugees It is hard to say I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn t continue in the future The Education Pack all different all equal was originally produced in 1995 as an educational resource for the European youth campaign against racism antisemitism xenophobia and intolerance Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond Translated into many languages it remains today one of the most successful and most sought after publications of the Council of Europe The usefulness of the pack stems from the variety and creativity of the methodologies proposed More than twenty years after the all different all equal campaign the role plays simulation exercises case studies and cooperative group work that it proposes remain an inspiration to many youth workers trainers teachers and other people actively involved in intercultural education European societies continue to suffer from a growth of racist hostility and intolerance towards minorities and foreigners the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable Little bit has been changed in this new edition of the pack apart from an updating of references Most changes are visible and usable only in the online version which offers relevant links with other resources for human rights education which continue the legacy of the campaign equality in dignity and rights respect for broader appreciation of diversity

Education Pack Pat Brander, Rui Gomes, Council of Europe, 2004-01-01 This publication updates the 1995 edition as an educational resource for the European youth campaign against racism anti semitism xenophobia and intolerance It provides a reference source for those involved in intercultural education and training with young people in Europe and beyond The pack itself offers a series of different methodologies

including role plays simulation exercises case studies and cooperative group work which can be adapted by trainers teachers and youth workers in their educational programmes

**Nothing Happened** Darcy Buerkle, 2013-12-13 Charlotte Salomon's 1917 43 fantastical autobiography *Life or Theater* consists of 769 sequenced gouache paintings through which the artist imagined the circumstances of the eight suicides in her family all but one of them women But Salomon's focus on suicide was not merely a familial idiosyncrasy *Nothing Happened* argues that the social history of early twentieth century Germany has elided an important cultural and social phenomenon by not including the story of German Jewish women and suicide This absence in social history mirrors an even larger gap in the intellectual history of deeply gendered suicide studies that have reproduced the notion of women's suicide as a rarity in history *Nothing Happened* is a historiographic intervention that operates in conversation and in tension with contemporary theory about trauma and the reconstruction of emotion in history

**Marginal Voices, Marginal Forms** Rachael Langford, Russell West-Pavlov, 1999 Diaristic writing has often been relegated to the fringes of literary studies as a marginal cultural activity This volume seeks to challenge that marginality by exploring some of the wide ranging forms of literary practice encompassed by diaristic writing in Europe from the Renaissance to the present day The volume deals with questions of the value and status of the diary of the functioning of the diary in society and history and of the reception and interpretation of the multifarious forms of first person daily writing The volume investigates diaries across national borders and linguistic boundaries so as to make the hitherto marginal place of the private journal a site of fruitful interdisciplinary encounters Australian British Catalanian French German and Italian critics examine diaries dating from the sixteenth to the twentieth century within the context of the literature history and literary history of Catalonia England France Germany and Italy A prime concern of the essays in this collection is to highlight the cultural generic and historical diversity of the diary while emphasising the points of convergence between different texts and differing critical approaches to the texts The volume will be of interest to students and teachers of European and comparative literature

Monroe, 1911 Holocaust Icons Oren Baruch Stier, 2015-11-01 The Holocaust has bequeathed to contemporary society a cultural lexicon of intensely powerful symbols a vocabulary of remembrance that we draw on to comprehend the otherwise incomprehensible horror of the Shoah Engagingly written and illustrated with more than forty black and white images *Holocaust Icons* probes the history and memory of four of these symbolic relics left in the Holocaust's wake Jewish studies scholar Oren Stier offers in this volume new insight into symbols and the symbol making process as he traces the lives and afterlives of certain remnants of the Holocaust and their ongoing impact Stier focuses in particular on four icons the railway cars that carried Jews to their deaths symbolizing the mechanics of murder the Arbeit Macht Frei work makes you free sign over the entrance to Auschwitz pointing to the insidious logic of the camp system the number six million that represents an

approximation of the number of Jews killed as well as mass murder more generally and the persona of Anne Frank associated with victimization Stier shows how and why these icons an object a phrase a number and a person have come to stand in for the Holocaust where they came from and how they have been used and reproduced how they are presently at risk from a variety of threats such as commodification and what the future holds for the memory of the Shoah In illuminating these icons of the Holocaust Stier offers valuable new perspective on one of the defining events of the twentieth century He helps readers understand not only the Holocaust but also the profound nature of historical memory itself
