EDITED BY
MICHAEL J. QUINN
and
JAMES J. HAYES

Since the mid-1960s, the Catholic Church in the United States has experienced a dramatic decline in membership and participation. This book examines the impact of this decline on Catholic schools, which have long been a central part of the Church's life. The editors, Michael J. Quinn and James J. Hayes, have assembled a team of leading scholars to explore the challenges and opportunities facing Catholic schools in this new era. The book is a valuable resource for anyone interested in the future of Catholic education in America.

Catholic Schools In A Declining Church:

Catholic Schools in a Declining Church Andrew M. Greeley, William C. McCready, Kathleen McCourt, National Opinion Research Center, 1976

Religious Schools in the United States K-12 (1993) Thomas C. Hunt, James Carper, 2017-12-15 First published in 1993 this volume is an extension and revision of the 1986 book entitled *Religious Schools in America A Selected Bibliography* This new version contains additional annotated bibliographies of the various denominational schools as well as discussing governmental relation to each setting in the years from 1985 to 1992 This version also covers Greek Orthodox and Muslim schools that were not part of the previous volume and includes a chapter on the growth of home schooling which is often influenced by religion Finally unlike the previous edition this book only considers religious schools rather than the religious aspect or function of public schooling Each section includes a short chapter followed by an extensive annotated bibliography making it a useful source for anyone looking for information in the area

Catholic Schools and the Public Interest Patricia A. Bauch, 2013-11-21 This book examines the contributions of Catholic K 12 schools in the U S from the 1800s to today highlighting seven strategies for positive change It addresses misunderstandings about Catholic schools and their service to both Catholics and non Catholics

To Touch Hearts - Pedagogical Spirituality and St. John Baptist de La Salle George Van Grieken FSC, 2011-03-25 This work addresses Lasallian pedagogical spirituality defined as the dynamic integration of foundational convictions basic operative commitments and consistent practices permeating the teaching dimensions of schools that claim the heritage of St John Baptist de La Salle and the Brothers of the Christian Schools The dissertation examines the content of Lasallian pedagogical spirituality and proposes measures for realizing its vitality within Lasallian school life Particular pedagogical characteristics components of an overall pedagogical spirituality are present in the original charism of St John Baptist de La Salle The basic operative commitments that underlie those characteristics ought to be integrally realized in a pedagogy that claims to be Lasallian and wholly incorporated in the formation of Lasallian educators There are three sequential parts to the dissertation 1 an overview of the St John Baptist de La Salle s context and personal history 2 an overview of his literature followed by an analysis of aspects of Lasallian pedagogical spirituality evidenced in that literature according to five pedagogical elements the teacher the student the teacher student relationship the activity of teaching and the school in general and 3 a contemporary articulation of the Lasallian basic operative commitments that characterize his spirituality today along with their implications for the formation of Lasallian educators Extrapolating from the life and writings of De La Salle ten Lasallian operative commitments are proposed The commitments are presented in the form of attributes that may be applied to Lasallian institutions and their pedagogical components 1 centered in and nurtured by the life of faith 2 trusting providence in discerning God s will 3 with creativity and fortitude 4 through the agency the Holy Spirit 5 incarnating Christian paradigms dynamics 6 with practical orientation 7 devoted to education accessible and comprehensive 8 committed

to the poor 9 working in association 10 expressing a lay vocation The dissertation concludes by presenting teacher formation structures and strategies for introducing Lasallian operative commitments and by providing a Lasallian Mission and Vision Statement

Outside In Paula S. Fass, 1991-09-26 Ever since the massive immigration from Europe of the late 19th century American society has accommodated people of many cultures religions languages and expectations The task of integration has increasingly fallen to the schools where children are taught a common language and a set of democratic values and sent on their ways to become productive members of society How American schools have set about educating these diverse students and how these students needs have altered the face of education are issues central to the social history of the United States in the 20th century In her pathbreaking new book Paula S Fass presents a wide ranging examination of the role of outsiders in the creation of modern education Through a series of in depth and fascinating case studies she demonstrates how issues of pluralism have shaped the educational landscape and how various minority groups have been affected by their educational experiences Fass first looks at how public schools absorbed the children of immigrants in the early years of the century and how those children gradually began to use the schools for their own social purposes She then turns to the experiences of other groups of Americans whose struggles for educational and social opportunities have defined cultural life over the last fifty years blacks whose education became a major concern of the federal government in the 1930s and 1940s women who had access to higher education but were denied commensurate job opportunities and Catholics who created schools that succeeded both in protecting minority integrity and in providing Catholics with a path to American success Along the way she presents a wealth of fascinating and surprising detail Through an examination of New York City high school yearbooks from the 1930s and 1940s she shows how a student s ethnic identity determined which activities he or she would engage in and how ethnicity was etched into schooling And she examines how the New Deal and the army in World War II succeeded in educating large numbers of blacks and making the inequalities in their educational opportunities a critical national concern A sweeping and highly original history of American education Outside In helps us to understand how schools have been shaped by their students how educational issues have merged with wider social concerns and how outsiders have recreated schooling and culture in the 20th century By opening up new historical terrain and rejecting a vision of outsiders as merely victims of American educational policy the book has important implications for contemporary social and educational issues
