Critical Theories in Dark Tourism Nitasha Sharma,Annaclaudia Martini,Dallen J. Timothy,2024-12-02 This book facilitates a critical investigation of gaps in theorizing and framing dark tourism by navigating through some onto epistemological issues theoretical entanglements future possibilities and the application of critical theoretical perspectives related to affect and emotions human animal studies postcolonialism feminism trauma studies posthumanism power and identity In doing so it advances the need to connect critical theory pragmatism and contemporary issues of social and global relevance Given the growing body of critical research within tourism studies dark tourism has somewhat lagged behind For example critical tourism researchers have been examining postcolonialism for two decades but dark tourism research has only sporadically engaged with this topic Similarly the issue of gender has been curiously neglected within dark tourism In addition dark tourism research has tended to shy away from the big challenges facing contemporary societies Through its

engagement with a range of critical theories this volume not only addresses gaps in the existing dark tourism literature but also moves the debate forward in exciting new directions This volume is well placed to demonstrate to other disciplines and fields that dark tourism research can be critical theoretically grounded and transformative Duncan Light **Annual Report** New Jersey.
