Causes Of Crime:

Crime and Criminality Ronald D. Hunter, Mark L. Dantzker, 2012 Intended to bridge the gap between theory and the real world of crime and criminal justice discussing what crime is why criminologists think people commit crime and how society feels it should handle these digressions

Understanding Drugs, Alcohol And Crime Bennett, Trevor, Holloway, Katy, 2005-04-01 Bennett and Holloway's Understanding Drugs Alcohol and Crime is the best most up to date and comprehensive examination for the United Kingdom of interactions among drugs alcohol and crime The authors exhaustively and authoritatively survey current knowledge in the UK and from many other countries on drug and alcohol use as a cause and consequence of crime and the effects of law enforcement and treatment responses Clearly written unfailingly lucid and admirably accurate this book will be the indispensable work on British drug policy for many years to come Professor Michael Tonry University of Minnesota Law School USA What makes this book particularly interesting is the refreshingly non judgmental presentation which conveys the essence of very important issues in contemporary society Therefore this is an ideal text not only for students but also for policy makers drugs and alcohol counsellors treatment agencies and everyone interested in doing research on drugs alcohol and crime Nicoletta Policek University of Abertay Dundee The publication is not only an excellent summary of the existing research in Great Britain and to a lesser extent from other jurisdictions it is a foundation for future research by evoking and at times provoking questions and offering a variety of possible responses Hirsch Greenberg University of Regina What is the connection between drugs alcohol and crime What works in reducing drugs and alcohol related crime The book provides a succinct overview of current theory and research on the links between drugs alcohol use and crime It discusses the legal and social context of drug and alcohol use and identifies current levels of consumption Focusing on the UK context it also takes into account international research where appropriate Detailed review of the research literature on the connections between drug use and crime Examines the current government anti drugs policy and assesses the effectiveness of programmes that have been used to reduce drug and alcohol related crime The book concludes that future government drugs policy should pay particular attention to the lessons learned from research on the connection between drug and alcohol use and crime Ideal for criminology criminal justice social policy and social work students this book will also be a useful source of information for policy makers the police probation workers social workers drugs and alcohol counsellors treatment agencies sentencers voluntary agencies Drug Action Teams and others with an interest in research on drugs and crime

Causes of Crime Stacey L. Tipp, JoAnne Buggey, 1991 Presents opposing viewpoints on the subject of crime and how it may be affected by poverty genetics drug use and easy access to guns

The Search for the Causes of Crime Michael Dow Burkhead, 2006 This volume examines criminology from the perspective of centuries of study Written by a psychologist who has worked extensively with the criminal population it focuses on the diverse theories that have been offered and the ways in which they contribute to the modern view of the criminal Provided by

publisher **Law and Order in Australia** Donald James Weatherburn,2004 How much crime is committed in Australia What sort of crime where and by whom What can we do to stop it This book deals in facts and dispels myths Don Weatherburn Director of the NSW Bureau of Crime Statistics and Research shows how policies are driven by the political need to manage public reactions not to control and prevent crime Law and Order in Australia informs public debate about crime in Australia by contrasting popular assumptions about crime and crime control with what is actually known to be true The opening chapter sets the scene by asking how serious Australia s crime problems are Weatherburn then offers a critique of the way Australian governments attempt to deal with Australia s crime problems This is followed by the foundations for a discussion of what actually works in crime prevention and control by highlighting some basic facts about crime and offenders The final chapters discuss what the evidence reveals about crime prevention and control and the key issues in crime prevention and control in Australia Weatherburn clearly provides numerous ideas for better policies ones that will actually work **Crime Human Nature** James Q. Wilson,Richard J. Herrnstein,1998 From Simon Schuster Crime Human Nature is the definitive study of the causes of crime Assembling the latest evidence from the fields of sociology criminology economics medicine biology and psychology and exploring the effects of such factors as gender age race and family two eminent social scientists frame a groundbreaking theory of criminal behavior **The Elgar Companion to Health Economics** Andrew M. Jones,2006-03-01 This Companion is a timely addition It contains 50 chapters from 90 contributors around the world on the topical and policy relevant aspects of health economics there is a balanced coverage of theoretical and empirical materials and conceptual and practical issues I have found the Companion very useful Sukhan Jackson Economic Analysis and Policy This encyclopedic work provides interested readers with an authoritative and comprehensive overview of many if not all of the current research issues in health economics Highly recommended Upper level undergraduates and above R M Mullner Choice The aim of The Elgar Companion to Health Economics is to take an audience of advanced undergraduates postgraduates and researchers to the frontier of research in health economics by providing them with short and easily readable introductions to key topics The volume brings together 50 chapters written by more than 90 leading international contributors The contributions to the Companion are concise and focus on specific concepts methods and key evidence The Companion is a comprehensive and authoritative original reference volume covering theoretical and empirical issues in health economics with a balanced range of material on equity and efficiency in health care systems health technology assessment and issues of concern for low and middle income countries It is organised into two broad sections The first deals with the economics of population health and of health care systems analysed with both equity and efficiency goals in mind The second covers the conceptual and practical issues that arise in the evaluation of health care technologies most often applied to pharmaceuticals but also relevant for other interventions Many of the contributions address topical and policy relevant issues including the economic causes of the growth of obesity in the West the link between illicit drug use and crime

the consequences of leaving people uninsured against the costs of health care the impact of globalisation on the international trade in health care services the role of informal payments in many health care systems what equal treatment for equal needs means in practice whether direct to consumer advertising of pharmaceuticals is desirable and how economic evidence is influencing the way that new technologies are made available to patients Other chapters stress the research done by health economists to develop theoretical models and empirical methods that illuminate the workings of health care systems
