Foreword

THE powers of careful observation and clear description of scenes and events have not been bestowed equally upon all of us; and but few of those so gifted or trained ever write of their experiences and observations.

Fortunately, Captain Ingersoll has those powers, and he has promptly written out what he so carefully observed. His description of the battle near El Guettar and the events both immediately before and after the battle make a living scene peopled by our own soldiers fighting against our principal enemies. It may be rather strong reading for some, but it must be remembered that a battle is not a game of ping-pong. It is a ferocious engagement and is met by thousands of our soldiers and of our allies every day in some part of the world.

Those at home and those who are about to enter a theater of operations—particularly the latter—will better do their part in this war if they realize more exactly what is going on at the final “business” end of the war structure. I do know, from my own experiences, that this is true for newly trained soldiers; and so I hope that some of them who may chance upon this book will read it carefully and benefit by the experiences described.
