Sabol Jr.,2009-06-24 Phantom Gettysburg discusses the contemporary alternative version of a perceived haunted battlefield In order to understand this alternative perception contemporary anomalous phenomena must be affixed to and analyzed within their exact historical setting and social context An ethnographic model of mid 19thc American culture is used as the basis for this analysis Specifically the cultural beliefs relative to the concepts of death and the afterlife as it was envisioned by these soldiers is the basis for this model This historical ethnographic analysis serves two purposes First it is a means to legitimize the methodology and fieldwork practices of ghost research Second it is meant to analyze the Gettysburg experience and its haunting uncertainty in its historical and sociocultural environment The conclusion that is drawn from this comparative approach alters the reality and representation of an interactive ghostly battlefield presence A Gettysburg haunted by Civil War soldiers is considered for the most part a phantom experience *Battlefield Ghost* Margery Cuyler,1999-01 When fourth grader John and his sister Lisa move into an old house in Princeton New Jersey they find it haunted by the ghost of a Hessian soldier from the Revolutionary War and try to reunite him with the ghost of his beloved horse **The Politics of Presence** John G. Sabol Jr.,2008-08-27 A major focus of ghost excavation as opposed to ghost hunting is an archaeology of experience The emergence of this experience is unearthed through the investigative engagement of haunted space One aspect of this engagement is performance which requires a specific sociocultural and historical context of understanding This context of understanding must be understood in terms of layers of meaning Gettysburg is used as a specific example of the use of performative and dramatical activity Each of these activities performed at Gettysburg predisposes a genre a set of beliefs practices social relations manifestations and locations which together define categorically what it is that is manifesting on the battlefield and what interpretations are being used to understand these performative cultural practices The genres of performative action at Gettysburg are important because they are located

at places on the battlefield where belief systems become mobilized into actual practice This book will explore various haunting uncertainties and cultural situations associated with ghostly activity and the implications of these performances as they are enacted by ghost hunters Civil War re enactors the tourism industry and the ghosts themselves **Battlefield Ghosts** Dinah J.
