Carter Presidency A Re Evaluation

Elsebeth Hurup

Carter Presidency A Re Evaluation:

The Carter Presidency John Dumbrell, 1995 With its associated images of the Iranian hostage crisis the presidency of Jimmy Carter from 1977 to 1981 is often regarded as a nadir in modern American national leadership In this re evaluation John Dumbrell looks at Carter s years in the White House from a post cold war perspective and argues that Carter was neither incompetent nor lacking in a compassionate vision

The Carter Presidency and Gay Rights Harris Dousemetzis, 2024-07-25 Examining a significant and largely unexplored aspect of Jimmy Carter s presidency 1977 1981 Harris Dousemetzis radically revises the current understanding of this critical period in American political history By using a wealth of previously unpublished archival material along with personal interviews with 43 prominent gay rights activists of the time and 12 senior Carter White House aides this book documents what actually happened during Carter s presidency regarding the development and recognition of gay rights and the efforts of the evangelical right to prevent social reform Investigating the full range of government actions taken and policies implemented Carter s personal commitment and support for the movement as well as the role of activists in bringing about change this is a significant and original contribution to knowledge about Carter s presidency the gay rights movement and American political development Dousemetzis situates Carter s presidency in its rightful place as a crucial stage in one of the most dynamic areas of change in recent American politics and political culture Features a Foreword by Stuart Eizenstat and an Afterword by Lilian Faderman

The Outlier Kai Bird, 2021-06-15 Important a landmark presidential biography Bird is able to build a persuasive case that the Carter presidency deserves this new look The New York Times Book Review An essential re evaluation of the complex triumphs and tragedies of Jimmy Carter s presidential legacy from the expert biographer and Pulitzer Prize winning co author of *American Prometheus* Four decades after Ronald Reagan s landslide win in 1980 Jimmy Carter s one term presidency is often labeled a failure indeed many Americans view Carter as the only ex president to have used the White House as a stepping stone to greater achievements But in retrospect the Carter political odyssey is a rich and human story marked by both formidable accomplishments and painful political adversity In this deeply researched brilliantly written account Pulitzer Prize winning biographer Kai Bird deftly unfolds the Carter saga as a tragic tipping point in American history As president Carter was not merely an outsider he was an outlier He was the only president in a century to grow up in the heart of the Deep South and his born again Christianity made him the most openly religious president in memory This outlier brought to the White House a rare mix of humility candor and unnerving self confidence that neither Washington nor America was ready to embrace Decades before today s public reckoning with the vast gulf between America s ethos and its actions Carter looked out on a nation torn by race and demoralized by Watergate and Vietnam and prescribed a radical self examination from which voters recoiled The cost of his unshakable belief in doing the right thing would be losing his re election bid and witnessing the ascendance of Reagan In these remarkable pages Bird traces the arc of Carter s

administration from his aggressive domestic agenda to his controversial foreign policy record taking readers inside the Oval Office and through Carter's battles with both a political establishment and a Washington press corps that proved as adversarial as any foreign power Bird shows how issues still hotly debated today from national health care to growing inequality and racism to the Israeli Palestinian conflict burned at the heart of Carter's America and consumed a president who found a moral duty in solving them Drawing on interviews with Carter and members of his administration and recently declassified documents Bird delivers a profound clear-eyed evaluation of a leader whose legacy has been deeply misunderstood The Outlier is the definitive account of an enigmatic presidency both as it really happened and as it is remembered in the American consciousness

The Carter Presidency Gary M. Fink, Hugh Davis Graham, 1998 After the Nixon and Ford administrations liberal Democrats hoped Jimmy Carter's election in 1976 would restore the New Deal agenda in the White House Instead during four tumultuous years in office Carter endorsed many of the fiscal and economic policies later espoused by his Republican successor Ronald Reagan But Carter also backed most New Deal social programs and however reluctantly pursued a traditional containment foreign policy In this book more than a dozen eminent scholars provide a balanced overview of key elements of Carter's presidency examining the significance of his administration within the context of evolving American policy choices after World War II They seek not only to understand the troubled Carter presidency but also to identify the changes that precipitated and accompanied the demise of the New Deal order By the time Carter took office many Americans had become disenchanted with big government and welfare spending and his presidency is viewed in these pages as a transitional administration As this volume demonstrates Carter's dilemma emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities While most of the contributors agree that his administration may be justly criticized for failing to find that course they generally conclude that Carter was more successful than his critics acknowledge These thirteen original essays cover such topics as the economy trade and industrial policies welfare reform energy environment civil rights feminism and foreign policy They offer thoughtful assessments of Carter's performance focusing on policy both as cause and effect of the post industrial transformation of American society that shadowed his administration A final essay shows how Carter's public spirited post presidential career has made him one of America's greatest ex presidents Grounded on research conducted at the Carter Library The Carter Presidency is an incisive reassessment of an isolated Democratic administration from the vantage point of twenty years It is a milestone in the historical appraisal of that administration inviting us to take a new look at Jimmy Carter and see what his presidency represented for a dramatically changing America

The Presidency of James Earl Carter, Jr Burton Ira Kaufman, Scott Kaufman, 2006 A thoroughly revised updated and newly illustrated version of the Gaddis Smith called the best book on the totality of the Carter presidency The new edition includes more on the former president's foreign and environmental policies and expands coverage of the personal Carter as well as his wife Rosalyn's

activist role during his administration *President Carter* Stuart E. Eizenstat,2018-04-24 The definitive history of the Carter Administration from a top White House advisor drawing from his extensive and exclusive notes Stuart Eizenstat was at Jimmy Carter s side from his political rise in Georgia through four years in the White House where he served as Chief Domestic Policy Adviser Famous for the legal pads he took to every meeting he draws on more than 5 000 pages of notes and hundreds of interviews with top officials to write the comprehensive history of this underappreciated president Eizenstat reveals how Carter brokered peace between Israel and Egypt what led to the return of the Panama Canal and how Carter made human rights a presidential imperative He follows Carter s passing of America s first comprehensive energy policy and his deregulation of the oil gas transportation and communications industries And he details the creation of the modern vice presidency Eizenstat also details Carter s many missteps including the Iranian Hostage Crisis Though Carter idealism sometimes hurt him his willingness to tackle intractable problems led to major long lasting accomplishments Jimmy Carter's Presidential Rhetoric Michael Robert Kramer,2005 **'What the Heck Are You Up To, Mr. President?'** Kevin Mattson,2009-06-23 An assessment of the events that led up to Jimmy Carter s infamous 1979 malaise speech places it against a backdrop of such events as the gas crisis and the Iran hostage situation while explaining that the speech had far greater relevance than its reception reflected **Right On?** Iwan W. Morgan,Philip Davies,2006 Right On presents an analysis of the ambitious and controversial agenda pursued by the George W Bush administration at home and abroad

People in the News Macmillan Publishing,David Brownstone,Franck,1997-05 This reference covers newsmakers of the prior year Combines biographical and bibliographical information on political and military leaders artists businesspeople writers and more Photos and cumulative index in each volume Heirs to the Nightmare Jason Maxwell Friedman,2009

Making a Nation Boydston,2002-02 People in the News, 1996 David Brownstone,Irene Franck,1996-05 Analyses of President Carter's Initiatives in Industrial Innovation and Economic Revitalization ,1981 *Civil Rights in the United States* Waldo E. Martin,Patricia Sullivan,2000 This two volume reference offers a fresh historical perspective that sees civil rights as evolving out of many often diverse sources and movements including the Bill of Rights as well as critical developments such as the African American civil rights movement of post World War II in America Presenting theory as well as the historical realities editors Martin history U of California and Sullivan W E B Du Bois Institute Harvard U treat both the upside and the downside of the theory and practice of civil rights in the U S since the founding of the nation The individual and group based biographical entries along with other accounts and discussions seek to capture the diverse and various tributaries that have flowed into and out of the mighty river of civil rights In particular they shift the discussion to include the struggles of other peoples of color as well as of other marginalized groups such as women lesbians and gays immigrants and the differently abled thus showing that the struggle for civil rights is at the very center of the American experience Contains many b w photographs Annotation copyrighted by Book News Inc Portland OR United States of America Robert Arthur

Burchell,2000 **The Unfinished Presidency** Douglas Brinkley,1998 In the end Carter emerges as a formidable world statesman fueled by Christian zeal and a colossal ambition to make peace *Presidential Scandals* Jeffrey Schultz,1999-11-18 Now there is available a concise single volume survey of presidential scandals in the United States that will help put the current controversy in perspective The book looks at the behavior and public image of every president from George Washington to Bill Clinton **The Lost Decade** Elsebeth Hurup,1996 To many Americans the 1970s seem a lost period a pale and undistinguished decade compared with the 1960s and the 1980s just as the presidents of the time Gerald Ford and Jimmy Carter were far less colourful and distinctive than Kennedy Nixon or Ronald Reagan In addition the 1970s were marked by economic recession and a national identity crisis in the aftermath of the Vietnam War Watergate and the energy crisis Not even the 1976 Bicentennial celebration was able to break this feeling of collective lethargy and disillusion Issue 26 of Aarhus University Press s arts and humanities journal The Dolphin demonstrates that while the 1970s were indeed rather grey in many respects they were also a time of reassessment and dynamism in many fields of popular American culture This point is illustrated by examples from different contexts Western movies the National Park Service self help psychology grass roots activism and popular music **The Longman History of the United States of America** Hugh Brogan,1999 Here at last is a new edition of this celebrated single volume history of America from the first British colonies right up to modern times Hugh Brogan offers an objective and balanced account of America s development to global superpower written with great brio and illuminated throughout by vivid sketches of its key figures The new edition takes the story forward from the fall of Nixon to the close of the Reagan era and the end of the Cold War A book for students scholars and general readers alike

Yeah, reviewing a books **Carter Presidency A Re Evaluation** could be credited with your near associates listings. This is just one of the solutions for you to be successful. As understood, expertise does not suggest that you have fabulous points.

Comprehending as capably as understanding even more than other will offer each success. next to, the publication as competently as keenness of this Carter Presidency A Re Evaluation can be taken as skillfully as picked to act.
