## Cascade Of Arms:

Mesomolecules D. Mendenhall, Joel F. Liebman, A. Greenberg, 2012-12-06 The title of this volume implies a progression of sorts from species of molecular size to a product described on the basis of continuum properties The difference in approach from the standpoint of molecular behavior on the one hand more the forte of chemists and from the standpoint of large scale properties on the other more the province of chemical engineers and materials scientists represents a severe cultural divide but one with much potential for creative input from both sides Chapter 1 of this volume attempts a broad survey of trends toward the synthesis of large well defined molecular systems with interesting physical chemical or material properties Review articles with more detailed treatments are emphasized In Chapter 2 Newkome and Moore field summarize work on synthesis of I cascade molecules Next Denti Campagna and Balzani describe the synthesis of assemblies with connected metal containing chromophore units which transmit electrons or electronic energy in defined ways In Chapter 4 Wuest describes the construction of hydrogen bonded organic networks and in Chapter 5 Michl defines a molecular level construction set Finally Jaszczak points out how nature's attempts over geological time spans are emulated by recent human synthetic activity in the fullerene arena through the appearance of various morphologies of natural graphite The book concludes with a method for describing fractal like molecules and an index based on the method for appropriate compounds described in the text **Cascade of Arms**, *From the Local to the Global* Gerard McCann, Stephen
