Case Of Walter Lippmann:

The Case of Walter Lippmann Lyndon LaRouche, It has been demonstrated beyond doubt by the experience of this writer and his associates that a United States government committed to the establishment of its own National Bank and an International Development Bank will gain virtually immediate agreement for practice with at the very least nearly every nation of the world excepting a few stubborn cases of remaining governments which can be merely tolerated Lyndon H LaRouche Jr writing in *The Case of Walter Lippmann A Presidential Strategy 1977* More that 40 years later the truth of this statement is obvious to all who take the time to investigate The irony is that it is the government of China which has proven this to be true Loans from national and international Development Banks begun by China have brought most of the world into cooperative development partnerships with China It pays to listen to the wisdom of Lyndon LaRouche In 2016 after decades destroying the once most prosperous and industrially progressive society in history the Tories finally lost complete control of the American Presidency In 2018 as we release this new edition of LaRouche s most important book of 1977 there is a fierce struggle ongoing inside America to determine whether the Presidency of the United States will finally and permanently be put under complete control of forces loyal to the General Welfare of the People and Posterity of America or whether the until recently dominant Tory interests which have abused the powers of the American Presidency to spread imperial wars poverty and hopelessness will be allowed to continue the destruction of the nation and the world Will we be able to truly make America great again and take a leading role in cooperation with especially Russia China and India for world development along the lines long promoted by Lyndon LaRouche and Helga Zepp LaRouche Or will the British Empire Wall Street interests finally accomplish the complete destruction of America and possibly the world in general via predatory finance and further geopolitical games played with thermonuclear fire This book is a history of this struggle as well as a guide to be used by Patriotic forces in finally defeating the Tory faction in order to put America back into a leading role in the development of science technology and the further uplifting of mankind in general and the suffering American people in particular
