## Case For Creation:

*The Case for a Creator Student Edition* Lee Strobel, 2010-12-21 In *The Case for a Creator Student Edition* best selling author and former atheist Lee Strobel and popular writer Jane Vogel take younger readers on a remarkable investigation into the origin of the universe interviewing many of the world's most renowned scientists and following the evidence wherever it leads. Their findings presented in the third blockbuster Case book student edition offer the most compelling scientific proof ever for intelligent design. Perfect for youth groups and young people eager to rebut the Darwinian and naturalistic views taught so commonly in schools.

**The Case for a Creator** Lee Strobel, 2009-05-18 Discover the astonishing evidence for intelligent design in this New York Times bestselling book by award-winning journalist Lee Strobel. My road to atheism was paved by science but ironically so was my later journey to God. Strobel says: During his academic years Lee Strobel became convinced that God was obsolete, a belief that colored his journalism career. Science had made the idea of a Creator irrelevant or so Strobel thought. But today science points in a different direction. A diverse and impressive body of research has increasingly supported the conclusion that the universe was intelligently designed. At the same time Darwinism has faltered in the face of concrete facts and hard reason. Has science discovered God? At the very least it's giving faith an immense boost as new findings emerge about the incredible complexity of our universe. Join Strobel as he reexamines the theories that once led him away from God. Through his compelling and highly readable account you'll encounter the mind-stretching discoveries from cosmology, cellular biology, DNA research, astronomy, physics, and human consciousness that present compelling evidence in *The Case for a Creator*. Also available: *The Case for a Creator* small group video study and study guide, Spanish edition, kids edition, student edition, and more.

[The Case for a Creator](#) Lee Strobel, 2004 Recent findings from the fields of astronomy, cosmology, biology, and biochemistry that provide convincing evidence for God. Like many people, Lee Strobel traces his atheism to high school when he was taught that Darwinism explained the origin and development of life. He assumed there was no room for God in a modern scientific mind. But now Strobel has discovered that the emperor of evolution has no clothes. As in his first two books, both multi-million sellers, *The Case for Christ* and *The Case for Faith*, Strobel assumes the role of skeptic in *The Case for a Creator* and uses a narrative technique to investigate the latest scientific findings concerning creation. What he has found is that there has never been a time in history when the hard evidence of science was more confirmatory of belief in God than it is today. Instead of science and religion being at odds, many scientists are now driven to faith by their very work. It is the atheist who has to maintain by faith despite all the evidence to the contrary that the universe did not have a beginning a finite time ago. *The Case for a Creator* provides an ironclad apologetic affirming the Christian belief in God as Creator. Yet it is written in an open, accessible style that invites skeptics and seekers to take another look at the evidence for God. This title is also available as unabridged Audio Pages CD.

**Case for a Creator for Kids** Lee Strobel, 2010-05-25 With clear facts and answers to the questions kids and those new to faith ask most

this adaptation of Lee Strobel's bestselling *The Case for a Creator* uses kid-friendly language, examples, and easy-to-understand information to introduce young readers to the research and evidence behind the questions of whether God created the universe, what science tells us about our world, and what those answers mean for us and our faith. Whether they've grown up in the church or are encountering faith for the first time, *The Case for a Creator for Kids* is the perfect resource to answer their most-asked questions about God and the creation of the universe. Adapting the ideas from *The Case for a Creator*, kids 6-10 will discover an introduction to the historical evidence, expert testimonies, extensive research, and scientific proof that back up what the Bible says. Scientific research that covers cosmology, how the universe began, DNA, physics, astronomy, and more, to look at how the way our world works connects with Scripture. Answers for why Christians believe what they do and their core theology. Kid-friendly stories and examples that make the facts easy to understand. Ways to talk to other people about God and open conversations or discussions about faith. *The Case for a Creator for Kids* is a solid source of information that looks at all sides of the issue to present solid evidence behind each conclusion and fact about the Christian faith. Presents Christian philosophy and world views in a child-friendly apologetic. Has illustrations and callout graphics to make the topics engaging for kids six and up. Is an excellent resource for Sunday schools or youth ministry, church libraries, or daycare and homeschooling. Help children with faith development and answer the questions they wonder about most with the rest of the series: *The Case for Christ for Kids*, *The Case for Christ for Kids 90 Day Devotional*, *The Case for Christ Devotions for Kids 365 Days with Jesus*, *The Case for Faith for Kids*, *The Case for Grace for Kids*, *The Case for Miracles for Kids*. *The Case for a Creator Study Guide Revised Edition* Lee Strobel, 2013-11-25. My road to atheism was paved by science, but ironically so was my later journey to God. Former atheist Lee Strobel has discovered that science, far from being the enemy of faith, now provides a solid foundation for belief in God. New scientific discoveries point to the incredible complexity of our universe, a complexity best explained by the existence of a Creator. This revised six-session study DVD digital video invites participants to encounter this evidence delivered in a compelling conversational style. Join Strobel in reexamining the theories that once led him away from God. Pastors, small group leaders, and individuals seeking resources that answer tough questions about the existence of God will find compelling answers in *The Case for a Creator* study. Sessions include: Science and God, Doubts about Darwinism, The Evidence of Cosmology, The Fine-tuning of the Universe, The Evidence of Biochemistry, The DNA and the Origin of Life. Designed for use with *The Case for a Creator Revised Video Study* 9780310699606, sold separately. *Case-based Reasoning in Design* Mary Lou Maher, Muthaukumar Balachandran, Dong Mei Zhang, 1995. **New York Supreme Court Case on Appeal and Papers on Appeal from Order** , *The Coming of God* Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jürgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and

political implications In a heartbreakingly fragile and fragment world Moltmann s comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God
