Coal Country:

results as well **Coal Country** Shirley Stewart Burns, Mari-Lynn Evans, Silas House, 2009 An illustrated chronicle of the growing protest movement against mountaintop removal mining MTR of coal in Appalachia including essays commentary and oral histories

Southern West Virginia Coal Country James E. Casto, 2004 Coal was mined in Southern West Virginia even before the state's birth in 1863 but was mostly consumed within a few miles of where it was dug When the railroads arrived on the scene they not only provided a means of getting that coal to market they also brought in trainloads of workers to the sparsely populated region With the mines generally located in remote out of the way spots operators were forced to build housing for those workers and their families as well as company stores schools and churches everything needed in a small community Overnight the nation's demand for coal turned sleepy little places in Southern West Virginia into boomtowns and helped cities such as Charleston and Huntington grow and prosper as gateways to and from the coalfields

Reckoning in Coal Country Mason Adams, Dustin Bleizeffer, 2020-10-27 From the hills of West Virginia to the wind swept prairies of Campbell County Wyoming journalists Mason Adams and Dustin Bleizeffer explore the cultural political and economic obstacles faced by rural communities hoping to survive and thrive in a world without coal Appalachia and Wyoming are dramatically different places but they also offer each other cautionary tales success stories and reasons for resilience and hope While the story continues to unfold *Reckoning in Coal Country* provides a snapshot of these communities at a critical inflection point in American history

Undermined in Coal Country Bill Conlogue, 2017-10-15 A study of lives and landscapes in Pennsylvania's Lackawanna Valley and what the region's history of mining reveals about human folly and endeavor *The Chronicle of Higher Education* Deep mining ended decades ago in Pennsylvania's Lackawanna Valley The barons who made their fortunes have moved on Low wages and high unemployment haunt the area and the people left behind wonder whether to stay or seek their fortunes elsewhere Bill Conlogue explores how two overlapping coal country landscapes Scranton Pennsylvania and Marywood University have coped with the devastating aftermath of mining Examining the far reaching environmental effects of mining this beautifully written book asks bigger questions about what it means to influence a landscape to this extent and then to live in it In prose rivaling that of Annie Dillard and John McPhee Conlogue argues that if we are serious about solving environmental problems if we are serious about knowing where we are and what happens there we need to attend closely to all places that is to attend to the world in a cold dark and disorienting universe Unearthing new ways of thinking about place pedagogy and the environment this meditative text reveals that place is inherently unstable
