Case Studies In Behavior Modification:

Case Studies in Behavior Modification Leonard P. Ullmann, Leonard Krasner, 1965 **CASE STUDIES IN BEHAVIOR MODIFICATION. 1965** ED ULLMANN, Behavior Modification in Children Henry C. Rickard, Michael Dinoff, 1974 Case Studies in Behavior Modification Leonard P. Ullmann, Leonard Krasner, 1965 **Case Studies in Behaviour Therapy** H. J. Eysenck, 2013-11-26 Originally published in 1976 and on the basis of extended case histories Eysenck showed how experts dealt with problems which arose in the course of behaviour therapy It showed how they formulated hypotheses about causation and treatment and used these to structure the methods employed and how they changed their hypotheses when treatment showed them to have been mistaken The prime aim was to demonstrate the complexities involved in even apparently simple cases and the need to base treatment on a proper understanding of the dynamics of the case All the articles were specially written for this book the purpose being to underline the need to state the dynamics of a case in such a form that they could be used as hypotheses leading to specific treatment recommendations The hypotheses were tested by the success or failure of the treatment thus making the treatment of individual patients a proper experimental procedure Behaviour therapy emphasises the fundamental importance of the outcome problem and only experience can teach the behaviour therapist just how this interplay of theory formulation and design of location evaluation of effect and changes in theory works in actual practice The book will help those engaged in this type of therapy to understand the process better and to gain a quicker mastery of the technique Three Case Studies Applying Behavior Modification Techniques to Schizophrenic Behavior Gary M. Coopersmith, 1974 **Case Studies for Positive Behavior Supports in Classrooms and Schools** Keith Storey, 2021-05-04 This book addresses the critical need for highly qualified personnel to work with students that have varying support needs and provides a framework for analyzing these needs The exploration of Positive Behavior Supports in this text will serve as a guide to help prepare teachers teachers in training and other service providers to adequately support and teach all students The author writes in a non technical style and provides case study examples and guides for assisting readers in analyzing and understanding the appropriate supports and interventions in Positive Behavior Supports These case studies analyze real life situations that will assist teachers and service providers The twelve case studies presented in this book contains four cases that offers a complete analysis and eight cases containing a description of the case with partial analysis components that readers can use for their own education including courses and or training purposes The applicability of the case studies to applied settings and the ability to use the case studies as assignments and or exams will be beneficial to all teachers and college instructors General references related to Positive Behavior Supports are provided including organizations and resources Empirical research to support that the interventions used in the case studies are evidence based practices is depicted Readers will appreciate the provision of a system for teachers teachers in training school psychologists behavior specialists classroom assistants and others to analyze

inclusion and to understand how supports and instruction can be used to best educate students with disabilities Progress in Behavior Modification Michel Hersen, Richard M. Eisler, Peter M. Miller, 2013-10-22 Progress in Behavior Modification Volume 4 is a multidisciplinary serial publication that encompasses the contributions of psychology psychiatry social work speech therapy education and rehabilitation This serial aims to meet the need for a review publication that undertakes to present yearly in depth evaluations that include a scholarly examination of theoretical underpinnings a careful survey of research findings and a comparative analysis of existing techniques and methodologies The discussions center on a wide spectrum of child and adult disorders The present volume opens with a chapter on behavioral treatment for obesity This is followed by separate chapters on applications of reinforcement techniques in the areas of pollution control and energy conservation job performance and unemployment community self government racial integration and others and behavior modification in community settings Subsequent chapters deal with demand characteristics in behavior modification the clinical utility of biofeedback procedures and the technology of training parents in behavior therapy The final chapter reviews the rationale and empirical support for the extinction approach of implosive flooding therapy **International Handbook of Behavior Modification and Therapy** Alan S. Bellack, Michel Hersen, Alan E. Kazdin, 2012-12-06 The rapid growth of behavior therapy over the past 20 years has been well documented Yet the geometric expansion of the field has been so great that it deserves to be recounted We all received our graduate training in the mid to late 1960s Courses in behavior therapy were then a rarity Behavioral training was based more on informal tutorials than on systematic programs of study The behavioral literature was so circumscribed that it could be easily mastered in a few months of study A mere half dozen books by Wolpe Lazarus Eysenck Ullmann and Krasner more or less comprised the behavioral library in the mid 1960s Seminal works by Ayllon and Azrin Bandura Franks and Kanfer in 1968 and 1969 made it only slightly more difficult to survey the field Keeping abreast of new developments was not very difficult as Behaviour Research and Therapy and the Journal of Applied Behavior Analysis were the only regular outlets for behavioral articles until the end of the decade when Behavior Therapy and Behavior Therapy and Experimental Psychiatry first appeared We are too young to be maudlin but Oh for the good old days One of us did a quick survey of his bookshelves and stopped counting books with behavior or behavioral in the titles when he reached 100 There were at least half again as many behavioral books without those words in the title

Case Studies in Behaviour Modification Leonard Paul Ullmann, 1965 **School-Based Behavioral Intervention Case Studies** Michael I. Axelrod, Melissa Coolong-Chaffin, Renee O. Hawkins, 2020-11-29 School Based Behavioral Intervention Case Studies translates principles of behavior into best practices for school psychologists teachers and other educational professionals both in training and in practice Using detailed case studies illustrating evidence based interventions each chapter describes all the necessary elements of effective behavior intervention plans including rich descriptions of target behaviors detailed intervention protocols data collection and analysis methods and tips for ensuring

social acceptability and treatment integrity Addressing a wide array of common behavior problems this unique and invaluable resource offers real world examples of intervention and assessment strategies
