Rhind,D.R. Fraser Taylor,2013-10-22 Making maps dates back at least four thousand years and it is widely recognised that many maps are of great historical value and present a skilled method of summarising the real world on a sheet of paper Less well known is the judgement involved in the selection and simplification of features the complex transformation of space and the exacting standards which are needed in cartography This book is primarily a tribute to Professor F J Ormeling former President and Secretary Treasurer of the ICA and gives a wide ranging review of the current status of cartography how this status was attained and the way in which the subject is expected to evolve over the next decade It is composed of two main sections In the first the present state of cartography in different countries is examined The second section is a thematic view in which some of the major issues and developments in cartography are discussed in turn including art and science in cartography the character of historical cartography the role of map making in developing countries the impact of a possible ideal computer mapping facility and how cartography has changed in recent years There are international contributions from authors distinguished and internationally recognised in cartography and related fields and who have had a significant input to the ICA Crossing Central Europe Helga Mitterbauer,Carrie Smith-Prei,2017-01-01 This volume studies elements of Austro Hungarian or Central European culture that were common across linguistic national and ethnic communities and shows how some of these commonalities survived or were transformed by the turmoil of the 20th century two world wars a major depression between the wars Stalinism and the Iron Curtain **Postsocialist Landscapes** Thomas Lahusen,Schamma Schahadat,2020-04-02 Since the fall of the Iron Curtain formerly socialist countries have gone through manifold transformations whilst remnants of socialism remain ubiquitous The volume

explores various spaces of the postsocialist landscape presenting a mixture of real and imaginary spaces of memory and nostalgia of aesthetic and political symbolism of the global East and the global South of academic and essayistic writing It casts a glance at the heterogeneous relics of socialism and their transformation in very different parts of the world From the description of post socialist interiors fa ades neighborhoods parks monuments and objects towards the imaginary spaces of literature the contributors describe the concreteness and intimacy of some of the places that span across and even beyond of what is left of the second world today *Cultural Link Kanada, Deutschland* David Gethin John,2003 Das Buch ist der erfolgreichen Geschichte eines akademischen Austauschs gewidmet Es dokumentiert die Magister und Doktorarbeiten mit denen mehr als 100 Studierende einen doppelten Studienabschluss erlangten einen deutschen und einen nordamerikanischen Titel Die Beitr ge reflektieren pers nliche Erfahrungen entwickeln innovative Konzepte interkulturellen Lehrens und Lernens analysieren linguistische und gesellschaftliche Aspekte des Kulturkontakts Intertextualit t Austauschprozesse sowie Kooperation und Partnerschaft f r gro e kulturelle Inszenierungen **Diercke-Weltatlas** Richard Dehmel,Carl Diercke,1974 *National Union Catalog* ,1982 **The National Union Catalogs, 1963-** ,1964 *The Nation, Europe, and the World* Hanna Schissler,Yasemin Nuhoglu Soysal,2005-04-01 Textbooks in history geography and the social sciences provide important insights into the ways in which nation states project themselves Based on case studies of France Germany the Netherlands Spain Greece Turkey Bulgaria Russia and the United States this volume shows the role that concepts of space and time play in the narration of our country and the wider world in which it is located It explores ways in which in western European countries the nation is reinterpreted through European lenses to replace national approaches in the writing of history On the other hand in an effort to overcome Eurocentric views world history has gained prominence in the United States Yet again East European countries coming recently out of a transnational political union have their own issues with the concept of nation to contend with These recent developments in the field of textbooks and curricula open up new and fascinating perspectives on the changing patterns of the re positioning process of nation states in West as well as Eastern Europe and the United States in an age of growing importance of transnational organizations and globalization
