Dilemmas Coping With Environmental Problems:

Dilemmas Graham Bennett, 1992 Applied Ethics in a Troubled World E. Morscher, O. Neumaier, Peter M. Simons, 2012-12-06 During the last two decades applied ethics has not only developed into one of the most important philosophical disciplines but has also differentiated into so many subdisciplines that it is becoming increasingly difficult to survey it A much needed overview is provided by the eighteen contributions to this volume in which internationally renowned experts deal with central questions of environmental ethics bioethics and medical ethics professional and business ethics social political and legal ethics as well as with the aims and foundations of applied ethics in general Thanks to a philosophical introduction and selected bibliographical references added to each chapter the book is very well suited as a basis for courses in applied ethics It is directed not only to philosophers and to ethicists from other disciplines but to scientists in general and to all people who are interested in the rational discussion of moral principles and their application to concrete problems in the sciences and in everyday life **Globalization and Environmental Challenges** Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kamari-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century Environment, Society and International Relations Gabriela Kütting, 2013-02-01 Written in an accessible and lively style this ground breaking text marries a critique of current remedies towards environmental problems to original and viable alternatives This text adopts an eco centric rather than a traditional environmental management perspective to focuses on the key issues such as The effectiveness of international agreements in solving environmental problems the role of the structures and constraints within which these agreements operate **Routledge Library Editions: Environmental Policy** Various, 2021-06-23 The 11 volumes in this set originally published between 1982 and 1995 draw together research by leading academics in the area of environmental policy and provides a rigorous examination of related key issues The volumes examine international policy impact assessment and future environmental planning This set will be of particular interest to students of Environmental Studies **The EU's Decision Traps** Gerda Falkner, 2011-05-12 Is European integration predominantly characterised by stalemate The EU s Decision Traps compares a number of crucial EU policy areas discussing if and how political blockage can be overcome in the process of European integration **Ibss: Political Science: 1992** British Library of Political and Economic Science, 1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Environment Joan Nordquist,1994 *Local Governance Around the World* Henry Teune,1995 *Social and Political Sciences of the Environment* Pieter Leroy,Nicolaas Johannes Maria Nelissen,1999 The Netherlands is regarded as a leading country in the field of environmental sciences and its environmental policy is widely considered as sophisticated But what do political and social sciences contribute to this policy What have Dutch political and social scientists achieved with regard to environmental problems and where do they stand in comparison to what is going on internationally The authors give an overview of three decades of research by Dutch political and social scientists of the environment Within that legacy they distinguish studies concerning the structural basis of environmental studies as well as research into environmental attitudes and behaviour environmental communication the environmental movement and environmental policy They identify the predominant research issues and those topics that have hitherto been relatively neglected **Trade, Sustainable**

Development and the Environment Maria Isolda P. Guevara, Centre for Trade Policy and Law,1995 To facilitate reference entries in this bibliography are classified under the following major topics issues and perspectives related to trade sustainable development and the environment trade environment and international organisations such as the International Monetary Fund World Bank United Nations and multinational corporations environmental agreements laws policies regulations and instruments the environment and trading arrangements such as the General Agreement on Tariffs and Trade the environment and key sectors with a focus on agriculture forestry and energy and theoretical analytical and methodological issues concerning environment and development In each classification entries are arranged alphabetically by author Some entries are repeated in different categories if they are pertinent to more than one category *Successful Environmental Policy* Martin Jänicke,Helmut Weidner,1995 **Uncertainty and Environmental Policy** ,2000

Environmental Law and Policy in the European Union and the United States Randall Baker,1997-11-20 Authorities in the fields of environmental and international law and policy political science environmental technology and public administration compare and contrast the ways in which the United States and the European Union handle similar environmental issues The contributors critically analyze the influence of culture and history on the way apparently similar developed democracies handle the same problems they examine the center state relationship as it applies to EU member countries in contrast to states within the United States they look at the challenge of transboundary international and global environmental problems and how these relate to the still emerging geopolitical reconfigurations involved in such structures as NAFTA and the EU and they examine how transnational resources are handled in the North American and EU contexts Randall Baker has assembled leading experts who examine significant issues for policymakers and environmentalists in North America and Western Europe **Sourcebook on Sustainable Development** International Institute for Sustainable Development,1992 This directory brings together important material from a wide variety of relevant sources beginning with a listing and description of about 70 of the principal international organizations active in the field of sustainable development It covers general

publications and guidebooks economy and ecology social and community issues and solutions environment and natural resources investment for sustainable development and regional and country reports Information is also given on audio visual productions and resources computer networks and conferencing systems and online databases A glossary is included The appendices provide detail on computer technology and practices *Geography Into the Twenty-First Century* Eleanor M. Rawlings, Richard A. Daugherty, 1996-05 This volume contains essays which describe key developments in the areas of human physical and environmental geography over the 20th century It also examines how the teaching of geography has changed highlighting alterations to the structure and character *European Integration and Environmental Policy* J. D. Liefferink, Philip Lowe, A. P. J. Mol, 1993 In the past two decades environmental policy has emerged as a major field of action in the European Community It is recognised that the liberalisation and integration of the European market should be matched by common environmental measures The process of environmental policy making in the Community is characterised by a delicate interplay of political agendas institutional relations and regulatory cultures at national and transnational levels This interplay is the subject of the present book **Governmental Response to Environmental Challenges in Global Perspective** Joseph G. Jabbara, O. P. Dwivedi, 1998
