Transformation: A Personal Journey Through the British Transformers Comic Volume 2: 1987-1989
Stuart Webb, 2017-07-11

By 1987 the British Transformers was at the peak of its powers. Alternating between US reprints showing the struggle for leadership within the Autobot and Decepticon forces and UK material dealing with the insane future Decepticon Galvatron's attempts to rule yesterday, what had started as a toy advert had become a sprawling space opera seared into the minds of an entire generation. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip and editorial, and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also highly personal, full of humour and silliness, and even the occasionally thoughtful moment. The final result is an essential read, not just for Transformers fans, but also for those interested in the history of Marvel UK and the impact this simple little comic had on an entire generation.

Transformers Armada
They tell the story of part 1 of the Unicron Trilogy. The Autobots race against the Decepticons to find the Mini-cons. The episode opens with a brief history of the Transformers War. It then goes to two teenagers, Rad and Carlos, heading out after school to check out a cave they'd spotted that was supposed to be haunted. After traveling a while, they step on a door that opens into a shaft, and down they go. At the bottom, they discover a glowing green stone. Rad bends down and touches it, and the whole cave lights up, and they feel an earthquake. The bright, coloured rays burst out of the ground straight to the space. The boy's schoolmate Alexis feels anxiety for them and rushes in to seek them. Running outside, the boys see a warp gate open with an immense robot inside. This is Megatron. Then Alexis shows up, and Rad drops the plate which transforms into Mini-con High Wire, who scans Rad's BMX bike and transforms into it. The kids try to escape on High Wire, but Megatron blocks their path and demands them to give him back his own thing; he means the Mini-con. Just in time, Optimus Prime warps in, and the leaders square off to battle. The two robots battle it out for the Mini-cons, while the kids and High Wire decide to make

their escape As they try to outrun the two Decepticons Demolisher and Starscream materialize in front of them while on their other side
