The Marriage Plot A Novel:

The Marriage Plot Jeffrey Eugenides, 2011-10-11 The long awaited new novel from the Pulitzer Prize winning author Jeffrey Eugenides There is no happiness in love except at the end of an English novel Anthony Trollope Barchester Towers Madeleine Hanna was the dutiful English major who didn't get the memo While everyone else in the early 1980s was reading Derrida she was happily absorbed with Jane Austen and George Eliot purveyors of the marriage plot that lies at the heart of the greatest English novels Madeleine was the girl who dressed a little too nicely for the taste of her more bohemian friends the perfect girlfriend whose college love life despite her good looks hadn't lived up to expectations But now in the spring of her senior year Madeleine has enrolled in a semiotics course to see what all the fuss is about and for reasons that have nothing to do with school life and literature will never be the same Not after she falls in love with Leonard Morten charismatic loner college Darwinist and lost Oregon boy who is possessed of seemingly inexhaustible energy and introduces her to the ecstasies of immediate experience And certainly not after Mitchell Grammaticus devotee of Patti Smith and Thomas Merton resurfaces in her life obsessed with the idea that Madeleine is destined to be his mate The triangle in this amazing and delicious novel about a generation beginning to grow up is age old and completely fresh and surprising With devastating wit irony and an abiding understanding and love for his characters Jeffrey Eugenides resuscitates the original energies of the novel while creating a story so contemporary that it reads like the intimate journal of our own lives *The Doctor in the Victorian Novel* Tabitha Sparks, 2016-03-23 With the character of the doctor as her subject Tabitha Sparks follows the decline of the marriage plot in the Victorian novel As Victorians came to terms with the scientific revolution in medicine of the mid to late nineteenth century the novel's progressive distance from the conventions of the marriage plot can be indexed through a rising identification of the doctor with scientific empiricism A narrative's stance towards scientific reason Sparks argues is revealed by the fictional doctor's relationship to the marriage plot Thus novels that feature romantic doctors almost invariably deny the authority of empiricism as is the case in George MacDonald's *Adela Cathcart* In contrast works such as Wilkie Collins's *Heart and Science* which highlight clinically minded or even sinister doctors uphold the determining logic of science and in turn threaten the novel's romantic plot By focusing on the figure of the doctor rather than on a scientific theme or medical field Sparks emulates the Victorian novel's personalization of tropes and belief systems using the realism associated with the doctor to chart the sustainability of the Victorian novel's central imaginative structure the marriage plot As the doctor Sparks examines increasingly stand in for the encroachment of empirical knowledge on a morally formulated artistic genre their alienation from the marriage plot and its interrelated decline succinctly herald the end of the Victorian era and the beginning of Modernism *The Bloomsbury Handbook to Edith Wharton* Emily Orlando, 2022-10-20 Bringing together leading voices from across the globe *The Bloomsbury Handbook to Edith Wharton* represents state of the art scholarship on the American writer Edith Wharton once primarily known as a New York novelist

Focusing on Wharton's extensive body of work and renaissance across 21st century popular culture chapters consider Wharton in the context of queer studies race studies whiteness studies age studies disability studies anthropological studies and economics Wharton's achievements in genres for which she deserves to be better known poetry drama the short story and non fiction prose Comparative studies with Christina Rossetti Henry James and Willa Cather The places and cultures Wharton documented in her writing including France Greece Italy and Morocco Wharton's work as a reader and writer and her intersections with film and the digital humanities Book edited by Dale Bauer and Elaine Showalter and with a foreword by the Director and senior staff at The Mount Wharton's historic Massachusetts home the Handbook underscores Wharton's lasting impact for our new Gilded Age It is an indispensable resource for readers interested in Wharton and 19th and 20th century literature and culture

An Ethics of Becoming Sonjeong Cho, 2014-02-04 In attempting to conceptualize feminine subjectivity beyond the familiar paradigm of dualism and within the parameters of ethics this study examines the political and intellectual identity of contemporary poststructuralist feminism and its profound resonance with the nineteenth century British female Bildungsroman Rooted in fundamental questions about the nexus between feminist theory and feminist literature genre and gender subjectivity and ethics sexuality and textuality and mimesis and politics this book aims specifically to configure feminine subjectivity in the horizon of becoming always incomplete non-identitarian performative unknowable and thus paradoxically unbecoming as it disseminates in a modality of alterity in novels by Jane Austen Charlotte Brontë and George Eliot The close reading of major novels by these women writers illuminates the artistic density and ethical depth of their writing by demonstrating that these women writers rewrite the genealogy of subjectivity and invent their own Bildungsroman as a rich narrative vehicle for the feminine
