on older age complicates the very avant garde or modernist aesthetics that each author was interested in what happens when the scene of the new is populated by older people How does an embodied experience of illness inform an aesthetics of late style After fulfilling their role as the youthful modern woman of the 1920s how did each artist continue to create rich avant garde works that go well beyond the paradigms of late modernism Modernist Poetics of Ageing argues that the late lives of some of modernism s most prominent and networked women writers are overlooked despite being rich vital and contemporary in their continuing commitment to modernist experiment By reframing these older modernist women writers as engaged in continuing creative experiments Modernist Poetics of Ageing reveals that the new does not always have to be young
