Saund, 2009-03-05 Economies in the Caribbean and all over the world are grappling with the consequences of globalisation and the accompanying changes in the rules of international trade including loss of preferential markets and erosion of preferences This has resulted in increasing global competition for traditional products from these economies a situation compounded by rising energy costs and accompanying negative social ills such as unemployment rising criminality health and educational challenges and the like Besides many of these economies are facing a serious threat from climate change and the accompanying environmental problems What are realistic socio economic development options for The Bahamas given the policy space now available to its government In this era of neoliberal globalisation however we would find that there has been little of worth contributed to the concrete task of working out thorough strategies and consistent policies i e the local response for coping with these socio economic problems in The Bahamas Indeed it is surprising how little attention has been paid to developing rational strategies and policies aimed at providing a planning frame to deal with the multi dimensional problems of the Bahamian underdevelopment The edited volume The Bahamas in the 21st Century seeks to answer questions like these and to offer concrete policy recommendations while engaging scholars policy makers professionals students and all persons interested in the burning issues associated with this theme Bahamas Handbook ,2009 The Certified Diver's Handbook : The Complete Guide to Your Own Underwater Adventures Clay Coleman, 2004-04-26 The real world guide for divers who want to enjoy their sport to the fullest More than half of the 1.5 million people who achieve scuba certification each year are stymied in their pursuit of the sport because they lack time and money to enjoy the exotic diving experiences they ve read about and don t want to be confined to group dives The Certified Diver s Handbook is the only guide to help them create their own diving adventures on any budget on any schedule in waters local or distant and without the restrictions of group demands Thirty year diving veteran and
