Bang Hai Ja:

The Two Koreas and their Global Engagements Andrew David Jackson, 2022-02-22 This book departs from existing studies by focusing on the impact of international influences on the society culture and language of both North and South Korea Since President Kim Young Sam's segyehwa drive of the mid 1990s South Korea has become a model for successful globalization In contrast North Korea is commonly considered one of the least internationally integrated countries This characterization fails to account for the reality of the two Koreas and their global engagements The opening essay situates the chapters by highlighting some significant contrasts and commonalities between the experiences of North and South Korea's history of engagement with the world beyond the Peninsula The chapters explore both the longer term historical influence of Korea's international contacts as well as specific Korean cultural linguistic and social developments that have occurred since the 1990s demise of the global Cold War and greater international integration
