The Literary Riddle Before 1600 Archer Taylor, 1948 **The Material Culture of Sex, Procreation, and Marriage in Premodern Europe** A. McClanan, K. Encarnación, 2016-09-23 This interdisciplinary anthology takes as its starting point the belief that as the material grounds of lived experience material culture provides an avenue of historical access to women s lives extending beyond the reaches of textual evidence Studies here range from utilitarian tools used in Late Roman abortion to sacred magical or ritual objects associated with sex procreation and marriage in the Renaissance Together the essays demonstrate the complex relationship between language and object and explore the ways in which objects become forms of communication in their own right transmitting both rather specific messages and more generalized social and cultural values

Commentary on Aristotle, ›Prior Analytics‹ (Book II) Leon Magentenos, 2021-11-08 This study contributes substantially to research on Aristotelian logic in Byzantium It includes a

critical edition of the commentary by Leo Magentenos the Metropolitan of Mytilene twelfth c on Book II of the Prior Analytics along with an edition of the syllogism diagram attributed to this work in the manuscript tradition of this work *The Old English Riddles and the Riddlic Elements of Old English Poetry* Rafat Boryslawski, Rafał Boryslawski, 2004 The art of posing riddles is possibly as old as mankind and spans two apparent extremes which nevertheless converge in the riddlic form that of wisdom and that of play With this perspective in mind the author examines the poetic enigmas present in the culture of Anglo Saxon England exploring both the Anglo Latin riddles of Aldhelm and those recorded in the Exeter Book His study investigates the Old English riddlic texts from a variety of angles arguing for the possibility of establishing patterns of Anglo Saxon riddlic composition as such The author intends to prove that both the Exeter collection and the Aenigmata of Aldhelm are constructed on the grounds of an identifiable structure of interrelations and interdependencies Additionally he argues that the riddlic mode of literary representation is also visible in other Anglo Saxon poetic compositions The analysis of such an assumption leads to the conclusion that the predilection for the riddle form in Anglo Latin and Anglo Saxon poetry results from an Old English vision of the Christian world
