Cézanne and the Post-Bionian Field Robert Snell, 2020-12-29 By inviting a conversation between them this book offers a nuanced introduction both to C zanne the father of modern art and perhaps the most vital body of theory in contemporary psychoanalysis post Bionian field theory as it has been evolving in Italy in the hands of Antonino Ferro Giuseppe Civitarese and others C zanne and Bion each insisting on his own truths spearheaded quite new directions in painting and in psychoanalysis Both point us towards a crucial insight far from being isolated self contained subjects we fundamentally exist only within a larger interpersonal field C zanne s painting can give us a direct experience of this For the Italian field analysts building on Bion s work the field is accessed through reverie metaphor and dream which now come to occupy the heart of psychoanalysis Here primitive proto emotions that link us all might be transformed as C zanne transformed his sensations into aesthetic form into feelings linked to thoughts that in turn enrich and expand the field The book draws on the words of artists C zanne himself Mann philosophers Merleau Ponty Bergson art historians and theorists Clark Smith Shaw as well as psychoanalysts Bion Ferro Civitarese and others and it is the first to focus on one particular and seminal painter as a way of exploring this aesthetic and field dimension in depth and
