Desert Giant (pb) Barbara Bash,2002-09-06 A story about the mighty saguaro cactus
A Cactus in the Desert Teresa Wairimu Kinyanjui,Anne Jackson,2011
At the Desert's Green Edge Amadeo M. Rea,1997-11-01 The Akimel O odham or Pima Indians of the northern Sonoran Desert continue to make their home along Arizona s Gila River despite the alarming degradation of their habitat that has occurred over the past century The oldest living Pimas can recall a lush riparian ecosystem and still recite more than two hundred names for plants in their environment but they are the last generation who grew up subsisting on cultivated native crops or wild foraged plants Ethnobiologist Amadeo M Rea has written the first complete ethnobotany of the Gila River Pima and has done so from the perspective of the Pimas themselves At the Desert s Green Edge weaves the Pima view of the plants found in their environment with memories of their own history and culture creating a monumental testament to their traditions and way of life Rea first discusses the Piman people environment and language then proceeds to share their botanical knowledge in entries for 240 plants that systematically cover information on economic botany folk taxonomy and linguistics The entries are organized according to Pima life form categories such as plants growing in water eaten greens and planted fruit trees All are anecdotal conveying the author s long personal involvement with the Pimas whether teaching in their schools or learning from them in conversations and interviews

At the Desert's Green Edge is an archive of otherwise unavailable plant lore that will become a benchmark for botanists and anthropologists. Enhanced by more than one hundred brush paintings of plants, it is written to be equally useful to nonspecialists so that the Pimas themselves can turn to it as a resource regarding their former lifeways. More than an encyclopedia of facts, it is the Pimas' own story, a witness to a changing way of life in the Sonoran Desert.

Habitats of the World Iain Campbell, Ken Behrens, Charles Hesse, Phil Chaon, 2021-09-28. The first field guide to all of the world's major land habitats, richly illustrated and packed with essential information to help you get the most out of your outdoor adventures. Accurately identifying and understanding habitats in detail is essential to any birder, naturalist, outdoor enthusiast, or ecologist who wants to get the most out of their experiences in the field. *Habitats of the World* is the first field guide to the world's major land habitats, 189 in all. Using the format of a natural history field guide, this compact, accessible, and comprehensive book features concise identification descriptions and is richly illustrated, including more than 650 color photographs of habitats and their wildlife, 150 distribution maps, 200 diagrams, and 150 silhouettes depicting each habitat alongside a human figure, providing an immediate grasp of its look and scale. Each major habitat has an illustrated climate box that allows easy comparisons between habitats. Thirty other illustrated boxes present clear explanations of complex phenomena affecting habitats, from plate tectonics and mountain formation to fire regimes and climate change. Requiring no scientific background, *Habitats of the World* offers quick and reliable information for anyone who wants a deeper understanding and appreciation of the habitats around them, whether in their own backyard or while travelling anywhere in the world. Covers 189 of the world's major land habitats. Provides all the information you need to quickly and accurately identify and understand habitats anywhere in the world. Features concise text, more than 650 color photographs of habitats and their wildlife, an up-to-date distribution map for each habitat, and hundreds of helpful diagrams and illustrations.
