Caduceus Wild Ward Moore, Robert Bradford, 1978 *Edinburgh Companion to Science Fiction and the Medical Humanities* Donna McCormack, Anna McFarlane, Gavin Miller, 2025-03-31 The medical humanities are becoming increasingly important as their first wave is interrogated by a critical approach that aims to uncover the wider possibilities of the field In conversation with this debate this volume explores the ways in which science fiction studies can contribute to such discussions Science fiction challenges techno optimism and offers a non realist avenue for the expression of illness experience Science fiction also estranges its readers from their societies and the medical possibilities inherent in those societies inviting consideration of how medicine may be complicit with or opposed to other structures of power By engaging these concerns this Companion volume offers a unique viewpoint on the power of the future to shape the present
