Religion and Extremism Douglas Pratt,2017-12-14 Focusing on the three monotheistic religions of Judaism Christianity and Islam Douglas Pratt argues that despite a popular focus on Islam extremist Jews and Christians can also enact terror and destruction Religion and Extremism stresses that the ideological rejection of diversity underlies religious extremism resulting in violent behaviours and increasingly in hardening social and religious attitudes and responses An analysis of religiously driven terrorism reveals the presence of a distinctive and rigid form of

exclusivity found in these religions In this regard the contemporary resurgence in totalising claims of fundamentalist ideologues is cause for particular concern Pratt reasons that however expressed the motif of the Absolute is central to all but how that absolute is and has been received interpreted and responded to is a matter of great diversity The author asserts that theological Absolutism displays an underlying dynamic whereby these three religions may be led into extremism Religion and Extremism also explores contemporary issues of Islamophobia and mutual extremism identified as reactive co radicalization and concludes by reflecting on how extremism today might be countered

The Politics of Toleration in Modern Life Susan Mendus,2000 In *The Politics of Toleration in Modern Life* Susan Mendus gathers a group of distinguished public figures philosophers historians lawyers and religious leaders to reflect on a core issue within contemporary political debate At the close of a century that will be remembered for its two world wars and its eruptions of genocide the contributors examine the importance of an insistence on tolerance and the dangers of its lack both historically and in the present day How can toleration be fostered in a contentious and tightly populated world What situations and fears have historically fed attitudes of intolerance When and how should states intervene The authors of these essays seek answers to such questions and examine topics such as why certain national groups are especially vulnerable to intolerance and narcissistic fantasies and how the colonial view of intolerant exploitation as an acceptable norm of behavior has been replaced by a drive toward international solidarity The essays address religious tolerance the role of toleration in legal contexts the philosophical justification of tolerance and the concept of solidarity Ethnic identity nationalism the goods of conflict and the treatment of refugees seeking asylum are discussed as well While one contributor argues that a moment of genuine tolerance is achieved only when there is a cost involved in the act of tolerating another person's way of living another stresses that rational communal dialogue can only take place if the state is excluded from the discussion if conflict is recognized as valuable and if local communities come to consensus about what behavior and discourse is intolerable Offering an accessible and engaging commentary on the concept of tolerance *The Politics of Toleration in Modern Life* will interest a wide range of readers of philosophy political science religion sociology and history Contributors George Carey Christopher Hill Michael Ignatieff Helena Kennedy Alasdair MacIntyre Susan Mendus Julia Neuberger Bernard Williams
