Faithless Execution Andrew C McCarthy, 2014-06-03 We still imagine ourselves a nation of laws not of men This is not merely an article of faith but a bedrock principle of the United States Constitution Our founding compact provides a remedy against rulers supplanting the rule of law and Andrew C McCarthy makes a compelling case for using it The authors of the Constitution saw practical reasons to place awesome powers in a single chief executive who could act quickly and decisively in times of peril Yet they well understood that unchecked power in one person s hands posed a serious threat to liberty the defining American imperative Much of the debate at the Philadelphia convention therefore centered on how to stop a rogue executive who became a law unto himself The Framers vested Congress with two checks on presidential excess the power of the purse and the power of impeachment They are potent remedies and there are no others It is a straightforward matter to establish that President Obama has committed high crimes and misdemeanors a term signifying maladministration and abuses of power by holders of high public trust But making the legal case is insufficient for

successful impeachment leading to removal from office Impeachment is a political matter and hinges on public opinion In Faithless Execution McCarthy weighs the political dynamics as he builds a case assembling a litany of abuses that add up to one overarching offense the president s willful violation of his solemn oath to execute the laws faithfully The fundamental transformation he promised involves concentrating power into his own hands by flouting law statutes judicial rulings the Constitution itself and essentially daring the other branches of government to stop him McCarthy contends that our elected representative are duty bound to take up the dare Video World-wide Manuel Alvarado,1988 This global report investigating the flow of video hardware software and videograms represents one of the first major studies of the domestic electronic phenomenon of the 1980s In less than a decade video technology has come from nowhere to occupying a place in over a third of the television households of the world **Transformation processes in Egypt after 2011** Radoslaw Fiedler,Przemyslaw Osiewicz,2015-08-17 The main advantage of this monograph is that it attempts to conduct the most up to date analysis possible of the present political situation in Egypt and the Middle East Therefore we receive a monograph which allows us not only to look at the Arab Spring from a historical perspective but primarily to reflect on the consequences of these past events that it was hoped would spark political reforms in Arab states and facilitate greater public participation in the system of governance Thus this publication allows the verification of many of the judgments and opinions expressed during the Arab Spring on the possible direction of development of the political processes initiated by the massive social revolts in Arab countries **Hanan al-Cinema** Laura U. Marks,2015-09-18 An examination of experimental cinema and media art from the Arabic speaking world that explores filmmakers creative and philosophical inventiveness in trying times In this book Laura Marks examines one of the world s most impressive and affecting bodies of independent and experimental cinema from the last twenty five years film and video works from the Arabic speaking world Some of these works creative strategies are shared by filmmakers around the world others arise from the particular economic social political and historical circumstances of Arab countries whose urgency Marks argues seems to demand experiment and invention Grounded in a study of infrastructures for independent and experimental media art in the Arab world and a broad knowledge of hundreds of films and videos Hanan al Cinema approaches these works thematically Topics include the nomadism of the highway nostalgia for 70s radicalism a romance with the archive algorithmic and glitch media haptic and networked space and cinema of the body Marks develops an aesthetic of enfolding and unfolding to elucidate the different ways that cinema can make events perceptible seek connections among them and unfold in the bodies and thoughts of audiences The phrase Hanan al cinema expresses the way movies sympathize with the world and the way audiences feel affection for and are affected by them Marks s clear and expressive writing conveys these affections in works by such internationally recognized artists and filmmakers as Akram Zaatari Elia Suleiman Hassan Khan Mounir Fatmi and Joana Hadjithomas and Khalil Joreige and others who should be better known **Africa Film & Tv** ,1995 Multimedia, Computer Graphics and Broadcasting, Part II
