Conflict And Crises:

Global Responses to Conflict and Crisis in Syria and Yemen Amanda Guidero, Maia Carter Hallward, 2018-12-11 This book compares different international responses to the internal conflicts in Syria and Yemen through an examination of the coverage each conflict has received in the media The work explores and evaluates rival explanations for why the Syrian conflict has garnered so much more attention than the Yemen conflict and the opportunities and limitations for using international law and international humanitarian law to discuss and analyze intervention Using this assessment the authors discuss why this differential attention matters in terms of IR theory humanitarian response and policy recommendations for responding to humanitarian crises *Disaster, Conflict and Society in Crises* Dorothea Hilhorst, 2013-07-18 Humanitarian crises resulting from conflict natural disaster or political collapse are usually perceived as a complete break from normality spurring special emergency policies and interventions In reality there are many continuities and discontinuities between crisis and normality What does this mean for our understanding of politics aid and local institutions during crises This book examines this question from a sociological perspective This book provides a qualitative inquiry into the social and political dynamics of local institutional response international policy and aid interventions in crises caused by conflict or natural disaster Emphasising the importance of everyday practices this book qualitatively unravels the social and political working of policies aid programmes and local institutions The first part of the book deals with the social life of politics in crisis Some of the questions raised are What is the meaning of human security in practice How do governments and other actors use crises to securitize and hence depoliticize their strategies The second part of the book deals with the question how local institutions fare under and transform in response to crises Conflicts and disasters are breakpoints of social order with a considerable degree of chaos and disruption but they are also marked by processes of continuity and re ordering or the creation of new institutions and linkages This part of the book focuses on institutions varying from inter ethnic marriage patterns in Sri Lanka to situation of institutional multiplicity in Angola The final part of the book concerns the social and political realities of different domains of interventions in crisis including humanitarian aid peace building disaster risk reduction and safety nets to address chronic food crises This book gives students and researchers in humanitarian studies disaster studies conflict and peace studies as well as humanitarian and military practitioners an invaluable wealth of case studies and unique political science analysis of the humanitarian studies field **Responding to Violent Conflicts and Humanitarian Crises** Pamela Aall, Dan Snodderly, 2021-01-08 This book introduces the four principal sets of institutions that engage in bringing peace and relief to societies mired in violent conflicts and humanitarian crises the United Nations and other international bodies non governmental organizations civilian government agencies and militaries Because these institutions have distinct goals as well as overlapping mandates and activities on the ground they do not always collaborate effectively due in part to a lack of familiarity with how the other institutions are organized make decisions or act on the ground Despite declining public

support for large scale state building missions recently more complex interagency efforts have evolved in partnership with host country governments Numerous third parties continue to undertake peacebuilding stabilization and humanitarian relief measures around the globe This book is intended primarily for those serving in the field but it is also helpful to headquarters personnel and policymakers as well as military and agency trainees and university students *Conflict and Crises* Roy M. Smith, 1988 In this book Elbert B Smith disagrees sharply with traditional interpretations of Taylor and Fillmore the twelfth and thirteenth presidents from 1848 to 1853 Smith argues that Taylor and Fillmore have been seriously misrepresented and underrated They faced a terrible national crisis and accepted every responsibility without flinching or directing blame toward anyone else Publisher Early Warning of Communal Conflicts and Humanitarian Crises Ted Robert Gurr, Barbara Harff, 1994 **Preventing Conflict, Managing Crisis** Eva Gross, Daniel Sheldon Hamilton, Claudia Major, Henning Riecke, 2011 Over the past two decades the United States and Europe have engaged actively in efforts to prevent conflict and to manage crises around the world How effective have such efforts been and how could they be improved This volume offers recommendations and applies them to specific case studies In includes a Crisis Management Toolbox that outlines the key principles actors and instruments guiding such efforts The Drama Magazine ..., 1914 The OSCE system: Institutional design and conflict management in the 21st century Harald Löberbauer, 2012-03-09 Research Paper undergraduate from the year 2006 in the subject Politics Topic International Organisations grade 1 A Diplomatic Academy of Vienna School of International Studies course NATO and the Politics of Trans Atlantic Relations language English abstract The OSCE is an international organization which acts on a regional security level It is the largest regional security organization in the world with 56 participating member states and is integrating the geographical area of Eurasia and North America The object of research is to find out how the organization is designed how it functions in conflict management and what future perspectives of the OSCE look like This research is basically divided into two parts III The OSCE as an international organization and IV The OSCE in the 21st century After defining the most important terms for this paper the first part of the research will analyze the institutional design the structure and the historic development of the OSCE with the aim to go into detail into conflict management mechanisms Case studies of missions of the OSCE are involved in the research but they are mentioned to supplement the empiric analysis of conflict management of the OSCE The second part of the analysis should give a future perspective for the OSCE The OSCE in the 21st century would be completely different from the OSCE of the 1970s Therefore in this part the focus is set on an analysis according to international relations theory and international law to show what the differences between the OSCE of the Cold War and the OSCE after 9 11 are Strength and limitations of the OSCE are shown in order to describe reform recommendations and future perspectives of the organization from a political scientist and international lawyer point of view The Drama, 1923 **The Dramatic and Undramatic in the Photoplay** Frank Lloyd, 1920 Conflict in World Politics Frank P.
