Boyte,2015-02-01 Today Americans feel powerless in the face of problems on every front Such feelings are acute in higher education where educators are experiencing an avalanche of changes cost cutting new technologies and demands that higher education be narrowly geared to the needs of today s workplace College

graduates face mounting debt and uncertain job prospects and worry about a coarsening of the mass culture and the erosion of authentic human relationships Higher education is increasingly seen and often portrays itself as a ticket to individual success a private good not a public one Democracy s Education grows from the American Commonwealth Partnership a year long project to revitalize the democratic narrative of higher education that began with an invitation to Harry Boyte from the White House to put together a coalition aimed at strengthening higher education as a public good The project was launched at the beginning of 2012 to mark the 150th anniversary of the Morrill Act which created land grant colleges Beginning with an essay by Harry C Boyte Reinventing Citizenship as Public Work which challenges educators and their partners to claim their power to shape the story of higher education and the civic careers of students the collection brings world famous scholars senior government officials and university presidents together with faculty students staff community organizers and intellectuals from across the United States and South Africa and Japan Contributors describe many constructive responses to change already taking place in different kinds of institutions and present cutting edge ideas like civic science civic studies citizen professionalism and citizen alumni Authors detail practical approaches to making change from new faculty and student roles to changes in curriculum and student life and strategies for everyday citizen empowerment Overall the work develops a democratic story of education urgently needed to address today s challenges from climate change to growing inequality

The Pivot Robert J. Bliwise,2022-10-03 The COVID 19 pandemic presented higher education with an unprecedented challenge How could institutions continue the basic work of teaching and research while maintaining safe environments for their faculty staff and students In The Pivot Robert J Bliwise traces Duke University s response to the pandemic to show how higher education broadly met that challenge head on Bliwise interviews people across the campus from bus drivers and vaccine researchers to student activists dining hall managers and professors in areas from English to ecology He explores the shift to teaching online and the reshaping of research programs how surveillance testing and reconfiguring residence halls and dining sites helped limit the virus spread on campus the efforts to promote student well being and to sustain extracurricular programs and what the surge in COVID 19 cases meant for the university health system Bliwise also shows how broad cultural conversations surrounding the 2020 presidential election climate change free speech on campus and systemic racism unfolded in this changed campus environment Although the pandemic put remarkable pressures on the campus community Bliwise demonstrates that it ultimately reaffirmed the importance of the campus experience in all its richness and complexity
