Conscience In Conflict Mivart:

A Conscience in Conflict. The Life of St. George Jackson Mivart. [With a Portrait.]. Jacob William GRUBER,1960

A Conscience in Conflict Jacob W. Gruber,1960 A Conscience in Conflict Jacob W. Gruber,1980-02-19 The Evolving God J. David Pleins,2013-06-06 In focusing on the story of Darwin s religious doubts scholars too often overlook Darwin s positive contribution to the study of religion J David Pleins traces Darwin s journey in five steps He begins with Darwin s global voyage where his encounter with religious and cultural diversity transformed his understanding of religion Surprisingly Darwin wrestles with serious theological questions even as he uncovers the evolutionary layers of religion from savage roots Next we follow Darwin as his doubts about traditional biblical religion take root affecting his career choice and marriage to Emma Wedgwood Pleins then examines Darwin s secret notebooks as he searches for a materialist theory of religion Again other surprises loom as Darwin s reading of Comte s three stages of religion s development actually predate his reading of Malthus Pleins explores how Darwin applied his discovery to the realm of ethics by formulating an evolutionary view of the Golden Rule in his *Descent of Man* Finally he considers Darwin s later reflections on the religion question as he wrestled with whether his views led to atheism agnosticism or a new kind of theism The Evolving God concludes by looking at some of the current religious debates surrounding Darwin and suggests the need for a deeper appreciation for Darwin as a religious thinker Though he grew skeptical of traditional Christian dogma Darwin made key discoveries concerning the role and function of religion as a natural evolutionary phenomenon The Metaphysical Society (1869-1880) Catherine Marshall,Bernard V. Lightman,Richard England,2019 This book contains essays by important scholars on the historical significance of the Metaphysical Society 1869 1880 The contributors examine the innermost thoughts of the leading intellectuals of the period as they grappled with the changes around them *The Origins of Catholic Evolutionism, 1831-1950* Kenneth W. Kemp,2025 The history of the Catholic Church s response to evolutionary biology has often been badly misrepresented as antagonistic In fact its response is better characterized as a long process of accommodation This work is a comprehensive introduction to the work of the Catholic scientists and theologians who worked out the details of that accommodation Few Catholics found the evolutionary origin of plant and animal species theologically objectionable None thought that evolutionary processes provided a sufficient account of the origin of the first human beings Catholics differed over whether those processes played a role in the origin of the first human body Catholic evolutionism began with the work of four nineteenth century scientists who might be called the pioneers of Catholic evolutionism Belgian geologist Jean Baptiste d Omalius d Halloy English anatomist George Mivart Italian anatomist Filippo De Filippi and French paleontologist Albert Gaudry The next generations of Catholic evolutionists writing in the period from about 1890 1940 included scientists Jesuit entomologists Erich Wasmann and Felix R schkamp as well as priests who focused more exclusively on the question of compatibility Dalmace Leroy John Zahm Henry de Dorlodot and Ernest Messenger Among the scientists

might also be included French paleontologist Pierre Teilhard de Chardin who made some contributions to the general idea of the compatibility of evolutionary biology and Catholic theology but who eventually veered off in the direction of a comprehensive evolutionary theology of nature the details of which are beyond the scope of this book Catholic anti evolutionists made efforts to have the Church prohibit works of Catholic evolutionism that in their judgment gave evolutionary processes too great a role in the formation of the human body or that relied on problematic principles of hermeneutics Efforts on the former front were eventually blocked by Pope Pius XI The first magisterial statement on the question came however only in 1950 with Pope Pius XII's encyclical *Humani generis* which provisionally declared the orthodoxy of evolutionary accounts of the origin of the human body In addition to providing details about Catholic evolutionists and the magisterium the book also reviews the treatment of the new ideas in Catholic encyclopedias periodicals and textbooks Although written in the first instance as a work of scholarship the book was also written with attention to the needs of scientists priests and members of the general public who are interested in the question

The Intellectual Crisis in English Catholicism William J. Schoenl, 2017-09-08 This volume first published in 1982 examines the attempts of English liberal Catholics to reconcile their Church with secular culture and provides an account of the development of liberal Catholicism in England in the late nineteenth and early twentieth centuries This work was written not only for specialists in religious history but for all readers who might be interested in this seminal period of Catholicism It is a study in religious intellectual and cultural history

Negotiating Darwin Mariano Artigas, Thomas F. Glick, Rafael A. Martínez, 2006-09-22 Drawing on primary sources made available to scholars only after the archives of the Holy Office were unsealed in 1998 *Negotiating Darwin* chronicles how the Vatican reacted when six Catholics five clerics and one layman tried to integrate evolution and Christianity in the decades following the publication of Darwin's *Origin of Species* As Mariano Artigas Thomas F. Glick and Rafael A. Martínez reconstruct these cases we see who acted and why how the events unfolded and how decisions were put into practice With the long shadow of Galileo's condemnation hanging over the Church as the Scientific Revolution ushered in new paradigms the Church found it prudent to avoid publicly and directly condemning Darwinism and thus treated these cases carefully The authors reveal the ideological and operational stance of the Vatican and describe its secret deliberations In the process they provide insight into current debates on evolution and religious belief
