Confessions of Two Brothers Addison Bartholomew Bowser,John Cowper Powys,2017-07-24 Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing s books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing s titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers Generally Trieste books are purchased singly on demand however they may also be purchased in bulk Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates

Nationality vs Universality Sławomira Żerańska-Kominek, 2016-01-14 For the last few decades historiography considered as the central discipline of musicology has explored new directions and sought inspiration for further research consequently redefining the fundamental premises of historical musicology This is especially true with regard to the concept of music history as the work of great individuals and the domain of artistic works resulting from either tradition or new inventions The validity of global and universal perspectives has been questioned and researchers have emphasized the need to focus on local realities and day to day musical life Another key topic in this ongoing debate is the impossibility of writing an objective historical narrative The methodological foundations of the traditional Western model of music historiography have been deconstructed a process which has revealed its profound and purely one sided ideological profile This publication deals with the history of music as a way of representing historical memory and as an instrument of shaping society's present It introduces selected European historiographic concepts created outside the official mainstream of Western historiography The contributions to this volume not only demonstrate the cultural diversity of the conventions in which music history is narrated but also reveal their ideological and political determinants As such the book represents fascinating reading for anyone interested in the mechanisms that shape notions of the musical past which for many nations in Central and Eastern Europe is also a key element of their identity The Publishers' Trade List Annual, 1917 **Reports of the Criminal Cases Decided by the High Court of Bombay** Ratanlal Ranchhoddas, 1920 **Catalogue of Title Entries of Books and Other Articles Entered in the Office of the Register of Copyrights, Library of Congress, at Washington, D.C.** Library of Congress.
