Elusive Security Laura Neack,2007 This clear and concise text offers a comprehensive comparison of national international and human security concepts and policies Laura Neack argues that security remains elusive because of a centuries old ethic insisting that states are the primary and most important international actors can rely ultimately only on themselves for protection and must keep all options on the table for national security The author compellingly demonstrates how a state first security ethic ultimately fails to secure states the international community and most important human beings Although security as a concept can be widened to include almost any aspect of existence Neack focuses especially on security from physical violence beginning with efforts by states to defend themselves against violent attack She explores such topics as the internal and external dimensions of security terrorism and defending the homeland threat perception and responses preemptive and preventive wars and other military interventions Next Neack examines efforts over the past century to protect states through the construction of the United Nations international security system and how collective security peacekeeping and peace enforcement have been used in that system Throughout Neack shows that human security has only mattered in terms of servicing the state s security needs a critique she takes up directly in the final chapters A range of short and extended case studies are offered to illustrate the conceptual materials and policy debates over security In this state first world we only can choose between degrees of insecurity true security remains elusive

Faith's Journey Confronts Obstacles R. C. Jette,2019-05-01 Many Christians lack understanding of faith s journey how God s soldiers are armored and how to be prepared for spiritual warfare Little knowledge in this area makes many go into battle unprepared and they lose fight after fight God s soldiers are doing spiritual warfare with natural fleshly means which causes them to be beaten and confused and as Job they sit believing that God has forsaken them This book is not a repeat of Storms Are Faith s Workout Preparing Christians for Spiritual Ambush It will build upon the truths in that book to help strengthen God s soldiers to go to battle dressed in the full armor of God There are no shortcuts to overcoming in this life and many obstacles must be faced In the pages of this book God s soldiers will gain the understanding of how faith works and the necessity for God s armor in facing whatever obstacle the devil has put in their

path When the book is finished God's soldiers will have confidence in God and in his armor They will be emboldened to stand firm confront any obstacle and overcome it by faith

Facing the Dragon Robert L. Moore, 2003 Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality Liberation from Tribalism in Religious Life this book length essay attacks the related problems of human evil spiritual narcissism secularism and ritual and grandiosity Robert Moore dares to insist that we stop ignoring these issues and provides clear sighted guidance for where to start and what to expect Along the way he pulls together many important threads from recent findings in theology spirituality and psychology and brings us to a point where we can conceive of embarking on a corrective course Traditional doctrinal and historical interpretation both rely heavily on rational analysis But from the disciples at Emmaus to the beginnings of the present century it has been the impact of scripture upon the human heart that has changed human lives In recent decades this impact has been strengthened by advances in linguistic and literary theory by such disparate influences as feminism structuralism Jungianism deconstructionism the analysis of archaic imagery and myth the recovery of Gnostic texts and finally an openness to pluralism whether ethnic geographic religious or interpretive All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role If you would understand the deepest roots of terrorism greed and religious fanaticism read Facing the Dragon But be forewarned you may find some offshoots in your own garden June Singer Jungian analyst author of Boundaries of the Soul Robert Moore Phd was an internationally recognized psychotherapist and consultant in private practice in Chicago He was considered one of the leading therapists specializing in psychotherapy with men because of his discovery of the Archetypal Dynamics of the Masculine Self King Warrior Magician Lover He served as Distinguished Service Professor of Psychology Psychoanalysis and Spirituality at the Graduate Center of the Chicago Theological Seminary and has served as a Training Analyst at the C G Jung Institute of Chicago He is Co founder of the Chicago Center for Integrative Psychotherapy
