action contestation and resistance Such a response to ethics invokes a disturbance of organizational order including an order that might itself be labelled ethical On these grounds the book offers an explication of an ethics for organizations which disturbs the selfishness of neoliberal morality and can inform a democratic politics rested on a genuine concern for the other and for justice Disturbing Business Ethics Emmanuel Levinas and the Politics of Organization offers an unconventional and enlightening approach to ethical thinking and practice in politics and organisations and will be of interest to students of business management leadership political science and organizational theory *The American Catholic Quarterly Review*
