Francione is known for his criticism of animal welfare laws and regulations his abolitionist theory of animal rights and his promotion of veganism and nonviolence as the baseline principles of the abolitionist movement In this collection Francione advances the most radical theory of animal rights to date Unlike Peter Singer Francione maintains that we cannot morally justify using animals under any circumstances and unlike Tom Regan Francione's theory applies to all sentient beings not only to those who have more sophisticated cognitive abilities *Making a Stand for Animals* Oscar Horta, 2022-06-23 Engaging and thought provoking this book examines how humans see and treat other animals and argues that we should extend equal consideration and respect to all beings human and nonhuman alike Our world is plighted by isms such as racism and sexism but we may have overlooked a very important one speciesism Speciesism is a form of discrimination against those who don't belong to a certain species It drives us to see nonhuman animals as objects rather than individuals with their own interests and with the ability to feel and suffer This book questions all of the assumptions speciesism is based upon It raises many challenging questions over humans very complicated attitudes toward other animals Thinking about how animals are used as well as the suffering of wild animals and what the future may be for all beings this book calls for society to seriously take into account the interests of all animals For all who care about animals or simply how to make the world a better place this book is essential reading
