The School Arts Magazine Pedro Joseph Lemos,1912 Human Rights in Children's Literature Jonathan Todres,Sarah Higinbotham,2015-12-01 How can children grow to realize their inherent rights and respect the rights of others In this book authors Jonathan Todres and Sarah Higinbotham explore this question through both human rights law and children s literature Both international and domestic law affirm that children have rights but how are these norms disseminated so that they make a difference in children s lives Human rights education research demonstrates that when children learn about human rights they exhibit greater self esteem and respect the rights of others The Convention on the Rights of the Child the most widely ratified human rights treaty not only ensures that children have rights it also requires that states make those rights widely known by appropriate and active means to adults and children alike This first of its kind requirement for a human rights treaty indicates that if rights are to be meaningful to the lives of children then government and civil society must engage with those rights in ways that are relevant to children Human Rights in Children s Literature investigates children s rights under international law identity and family rights the right to be heard the right to be free from discrimination and other civil political economic social and cultural rights and considers the way in which those rights are embedded in children s literature from Peter Rabbit to Horton Hears a Who to Harry Potter This book traverses children s rights law literary theory and human rights education to argue that in order for children to fully realize their human rights they first have to imagine and understand them

Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies and then gradually add new materials to fill the art cabinets, as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children and support the parent-teacher-care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences.
