**Child Behavioral Assessment** Thomas H. Ollendick, Michel Hersen, 1984-01 *Handbook of Clinical Behavioral Pediatrics* Alan M. Gross, Ronald S. Drabman, 2013-03-07 Since 1978 the editors have collaborated on several research projects and spent many hours at conventions discussing research graduate education and patient care The idea for this volume arose when we both concluded that the area of behavioral pediatrics needed a how to book Several important scholarly re views had recently appeared They presented excellent summary information concerning the general assumptions and theories underlying the area of behavioral medicine with children But these volumes devote very little attention to the application of clinical methods What was needed we thought was a book that would allow graduate students and practicing clinicians the opportunity to peer into the minds of eminent practitioners and understand their thinking Thus the book was conceived Editing books represents a special kind of challenge One has to sell an idea to a group of distinguished colleagues They have to believe enough in that idea to devote the considerable time and effort necessary to bring thought into reality In this case there were two ideas we tried to sell to our colleagues *Handbook of Child and Adolescent Assessment* Thomas H. Ollendick, Michel Hersen, 1993 A multi authored handbook exploring the principles and procedures of child and adolescent assessment Using their earlier volume *Child Behavioral Assessment* Pergamon 1984 as a springboard the editors extend their coverage to adolescence and suggest that all assessment practices behavioral and [Handbook of Social and Evaluation Anxiety](#) H. Leitenberg, 2013-11-11 For a long time I have wanted to put together a book about social and evaluation anxiety Social evaluation anxiety seemed to be a stressful part of so many people s everyday experience It also seemed to be apart of so many of the clinical problems that I worked with Common terms that fit under this rubric include fears of rejection humiliation criticism embarrassment ridicule failure and abandonment Examples of social and evaluation anxiety include shyness social inhibition social timidity public speaking anxiety feelings of self consciousness and awkwardness in social situations test anxiety performance anxiety in sports theater dance or music shame guilt separation anxiety social withdrawal procrastination and fear of job interviews or job evaluations of asking someone out of not making a good impression or of appearing stupid foolish or physically unattractive In its extreme form social anxiety is a behavior disorder in its own right social phobia This involves not only feelings of anxiety but also avoidance and withdrawal from social situations in which scrutiny and negative evaluation are anticipated Social evaluation anxiety also plays a role in other clinical disorders For example people with agoraphobia are afraid of having a panic attack in public in part because they fear making a spectacle of themselves Moreover even their dominant terrors of going crazy or having a heart attack seem to reflect a central concern with social abandonment and isolation **Child Behavioral Assessment** Thomas H. Ollendick, M. Hersen, 1983-12-01 **Handbook of Behavior Therapy with Children and Adults** Robert T. Ammerman, Michel Hersen, 1993 **Handbook of Child and Adolescent Assessment** Thomas H.
