Children And Their Changing Media Environment A European Comparative Study:

Children and Their Changing Media Environment Sonia Livingstone, Moira Bovill, 2013-06-07 Focusing on the meanings uses and impacts of new media in childhood family life peer culture and the relation between home and school this volume sets out to address many of the questions fears and hopes regarding the changing place of media in the lives of today's children and young people The scholars contributing to this work argue that such questions intellectual empirical and policy related can be productively addressed through cross national research Hence this volume brings together researchers from 12 countries Belgium Denmark Finland France Germany the United Kingdom Israel Italy the Netherlands Spain Sweden and Switzerland to present original and comprehensive findings regarding the diffusion and significance of new media and information technologies among children Inspired by parallels and difference between the arrival of television in the family home during the 1950s and the present day arrival of new media the research is based on in depth interviews and a detailed comparative survey of 6 to 16 year olds across Europe and in Israel The result is a comprehensive detailed and fascinating account of how these technologies are rapidly becoming central to the daily lives of young people As a resource for researchers and students in media and communication studies leisure and cultural studies social psychology and related areas this volume provides crucial insights into the role of media in the lives of children The findings included herein will also be of interest to policymakers in broadcasting technology and education throughout the world *The Media's Impact on Children: A Handbook for Parents, Educators and Policymakers* Karyn Riddle, 2009 Studies in Modern Childhood J. Qvortrup, 2005-08-05 In this timely study high profile researchers contribute to the burgeoning field of the social studies of childhood with original and often surprising perspectives and approaches They demonstrate that far from being esoteric or negligible childhood is part and parcel of the social fabric in both poor and affluent countries With chapters on children's agency in small worlds and childhood's placement in large scale relationships the book shows not only the variety of childhoods but also suggests that much is common in a generational context *Media, Family Interaction and the Digitalization of Childhood* Anja Riitta Lahikainen, Tiina Mälkiä, Katja Repo, 2017-09-29 This is a first class repository of new knowledge on how media and family routines intertwine in daily interactions The multi method approach reveals how varying forms of media affect the interaction between children and their parents Avoiding criticism of these interactions the contributors instead offer an impartial view of the natural occurrences in media related family life **The Routledge International Handbook of Children, Adolescents and Media** Dafna Lemish, 2013-07-18 The roles that media play in the lives of children and adolescents as well as their potential implications for their cognitive emotional social and behavioral development have attracted growing research attention in a variety of disciplines The Routledge International Handbook of Children Adolescents and Media analyses a broad range of complementary areas of study including children as media consumers children as active participants in media making and representations of children in the media The handbook

presents a collection that spans a variety of disciplines including developmental psychology media studies public health education feminist studies and the sociology of childhood Essays provide a unique intellectual mapping of current knowledge exploring the relationship of children and media in local national and global contexts Divided into five parts each with an introduction explaining the themes and topics covered the handbook features 57 new contributions from 71 leading academics from 38 countries Chapters consider vital questions by analyzing texts audience and institutions including the role of policy and parenting in regulating media for children the relationships between children s on line and off line social networks children s strategies of resistance to persuasive messages in advertising media and the construction of gender and ethnic identities The Handbook s interdisciplinary approach and comprehensive international scope make it an authoritative state of the art guide to the nascent field of Children s Media Studies It will be indispensable for media scholars and professionals policy makers educators and parents

International Handbook of Children, Media and Culture Sonia Livingstone, Kirsten Drotner, 2008-03-06 Deliberately selected to represent as many parts of the globe as possible and with a commitment to recognizing both the similarities and differences in children and young people s lives from China to Denmark from Canada to India from Japan to Iceland from the authors offer a rich contextualization of children s engagement with their particular media and communication environment while also pursuing cross cutting themes in terms of comparative and global trends

Children and the Internet Sonia Livingstone, 2013-05-06 Is the internet really transforming children and young people s lives Is the so called digital generation genuinely benefiting from exciting new opportunities And worryingly facing new risks This major new book by a leading researcher addresses these pressing questions It deliberately avoids a techno celebratory approach and instead interprets children s everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity Uniquely *Children and the Internet* reveals the complex dynamic between online opportunities and online risks exploring this in relation to much debated issues such as Digital in exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity development education and participation this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet from governments teachers parents and children themselves It concludes with a forward looking framework for policy and regulation designed to advance children s rights to expression connection and play online as well as offline
