Sharing the daily struggles of children and families residing in transitional situations homelessness or because of risk of  
homelessness being connected with the child welfare system or being new immigrants in temporary housing this text  
recommends strategies for delivering mental health and intensive case management services that maintain family integrity  
and stability Based on work undertaken at the Center for the Vulnerable Child in Oakland California which has provided  
mental health and intensive case management to children and families living in transition for more than two decades this  
volume outlines culturally sensitive practices to engage families that feel disrespected by the assistance of helping  
professionals or betrayed by their forgotten promises Chapters discuss the Center s staffers attempt to trace the influence of  
power privilege and beliefs on their education and their approach to treatment Many U S children living in impoverished  
transitional situations are of color and come from generations of poverty and the professionals they encounter are white  
middle class and college educated The Center s work to identify the influences or obstacles interfering with services for this  
target population is therefore critical to formulating more effective treatment interaction and care      **"Code of
