## **Child Savers:**

The Child Savers Anthony M. Platt, 1977-06-15 Anthony Platt's study a chronicle of the child saving movement and the juvenile court explodes myth after myth about the benign character of both. The movement is described not as an effort to liberate and dignify youth but as a punitive romantic and intrusive effort to control the lives of lower class urban adolescents and to maintain their dependent status. In so doing Platt analyzes early views of criminal behavior, the origins of the reformatory system, the social values of middle class reformers and the handling of youthful offenders before and after the creation of separate juvenile jurisdictions. In this second enlarged edition of *The Child Savers* the author has added a new introduction and postscript in which he critically reflects upon his original analysis, suggests new ways of thinking about the child saving movement and summarizes recent developments in the juvenile justice system.

*Delinquency in Society* Robert Regoli, John Hewitt, Matt DeLisi, 2010. *Delinquency in Society* Eighth Edition provides a systematic introduction to the study of juvenile delinquency, criminal behavior and status offending youths. This text examines the theories of juvenile crimes and the social context of delinquency including the relevance of families, schools and peer groups. Reorganized and thoroughly updated to reflect the most current trends and developments in juvenile delinquency, the Eighth Edition includes discussions of the history, institutional context and societal reactions to delinquent behavior. Delinquency prevention programs and basic coverage of delinquency as it relates to the criminal justice system are also included to add context and support student comprehension.

**Juvenile Delinquency** James W. Burfeind, Dawn Jeglum Bartusch, 2005-11. Burfeind, sociology U of Montana and Bartusch, sociology Valparaiso U present to criminal justice students examinations of both the classical theories and current research of delinquency. Extended case studies begin each chapter. The text examines the extent of delinquent offenses, the gender, race and class of offenders and developmental p.

**Race and Crime** Shaun L. Gabbidon, Helen Taylor Greene, 2009. The Second Edition of the popular *Race and Crime* addresses two major goals. First, the text examines the history of how racial and ethnic groups including African Americans, Blacks, Asian Americans, Latinos, Latinas, Native Americans and Whites intersect with the U.S. criminal justice system. Second, the authors investigate key contemporary issues relevant to understanding the current state of race, ethnicity and crime in the United States. To achieve these goals, *Race and Crime* studies the historical background and current issues in the context of policing, courts, sentencing, juvenile justice and corrections.
