[A Dictionary of Traditional First Names](#) Eric Partridge,1951      [A Dictionary of First Names](#) Patrick Hanks,      **A Dictionary of Traditional First Names** Eric Partridge,1992      **A Concise Dictionary of First Names** Patrick Hanks,Flavia Hodges,1992 Here is the ultimate first name handbook a delightfully informative comprehensive survey of over 4 500 European and American names with two appendices covering the most common Arabic and Indian names This dictionary is an authoritative reference Indeed no other handbook provides a fraction of the information found here Typical entries provide the linguistic and ethnic root of a name Jennifer for instance is a Cornish form of Guinevere which in turn is the French version of a Welsh name combining gwen white fair smooth and hwyfar smooth soft The real charm and value of this reference lies in the wealth of fascinating additional information the authors provide Under the entry for Audrey for example we learn of the sixth century saint of that name who died from a neck tumor divine punishment for her youthful delight in fine necklaces from whom the word tawdry derives it referred originally to the cheap jewelry sold at fairs in her honor St Audrey eventually being compressed into tawdry And readers will be interested to know that Bonnie is not a Scottish name but one first used in Margaret Mitchell s *Gone With the Wind* Most entries also include the non English form or cognate of a name as well as diminutives and pet forms A companion to the authors *A Dictionary of Surnames* this informative reference offers a goldmine of curious facts to delight browsers of every age as well as a wealth of inspiration for prospective parents      **Zambian Traditional Names** Mwizenge Tembo,2006      [The Penguin Dictionary of First Names](#) David Pickering,2004 This is a guide to the history and meaning of names This reference is not just a list of different names but takes the reader back to the historical roots of each name with their cultural religious and artistic heritage helpfully explained      **Writing to Learn** Fred Sedgwick,2002-01-04 Writing to Learn looks at how poetry can be used as an enjoyable way to teach literacy across the curriculum It includes remarkable poems and stories by children as well as clear descriptions of how to teach creatively within the framework of the National Literacy Strategy The book goes through the primary curriculum subject by subject Poetry and Science and Maths Poetry and Personal Social and Moral Education Poetry and Art and Music Poetry and Religious Education Poetry for its Own Sake The author includes advice on different ways children can compose their writing and how computers can be a valuable aid to children s writing examples of published poetry and how it can be used to stimulate good writing advice on bringing writers into schools and publishing school anthologies This book will prove invaluable to teachers and parents keen to teach writing whilst seeing children as active and critical learners It shows that if we expect great things from children in writing we get them      [A Dictionary of Science, Literature and Art, Comprising the Definitions and Derivations of the Scientific Terms in General Use ...](#) William Thomas Brande,1875      **Guide to Reference in Genealogy and Biography** Mary K. Mannix,Fred Burchsted,Jo Bell Whitlatch,2015 An excellent starting point for both reference librarians and for library users seeking information about

family history and the lives of others this resource is drawn from the authoritative database of Guide to Reference voted Best Professional Resource Database by Library Journal readers in 2012 Biographical resources have long been of interest to researchers and general readers and this title directs readers to the best biographical sources for all regions of the world For interest in the lives of those not found in biographical resources this title also serves as a guide to the most useful genealogical resources Profiling more than 1400 print and electronic sources this book helps connect librarians and researchers to the most relevant sources of information in genealogy and biography **Names**, 1997 Journal of the American Name Society **World of Baby Names** Teresa Norman, 2003-07-01 One of the most comprehensive baby name reference guides available featuring more than 30 000 baby names has been revised and expanded Each chapter focuses on names from specific countries regions and ethnicities including details about traditional naming customs Each entry contains various spellings and pronunciations as well as the name s meaning history etymology and derivations *The Comprehensive Dictionary of English & Hebrew First Names* Alfred J. Kolatch, 2005-01-01 Modern English and Hebrew names with an analysis of their meanings and origins [Japan in Traditional and Postmodern Perspectives](#) Charles Wei-hsun Fu, Steven Heine, 1995-07-01 In this book each of the chapters offers an analysis of the origins and development of an important aspect of Japanese culture including religion Pure Land Buddhism and Zen Shinto and folk religions Confucianism and Tokugawa era ideology philosophy classical Buddhism and the contemporary Kyoto School literature and the arts medieval poetry and drama modern fiction and films and social behavior family system feminism nationalism and economic growth The central underlying theme is the uniqueness and creativity of Japan as seen from twentieth century perspectives One of the fascinating things about Japanese culture is that on the one hand it seems to have held onto its traditional foundations with a greater sense of determination and celebration than most societies and at the same time it appears to have attained a position at the forefront of international modernist and postmodernist developments The authors explore several approaches to this issue One school of thought is influenced by recent Japanese writers and intellectual historians such as Mishima Tanizaki Watsuji and Nakamura Another approach is influenced by Western poststructuralist commentators such as Barthes Derrida and Lyotard A third approach is to argue against the thesis known as nihonjinron Japanism or cultural exceptionalism by suggesting that the notion of Japanese uniqueness is itself a cultural myth generated by nationalist and particularist trends originating in the Tokugawa era The volume features an essay by Kenzaburo Oe winner of the Nobel Prize for Literature entitled *Japan the Dubious and Myself* [A Dictionary of Science, Literature, and Art](#) William Thomas Brande, George William Cox, 1872 *General Catalogue of the Public Library of Detroit, Mich. expected bibliographies indexes dictionaries encyclopaedias and directories a number of important textbooks and manuals of general practice are included While the majority of the items are books Walford is a guide to reference material Thus periodical articles microforms online and CD ROM sources are all represented In this volume a particular effort has been made to improve coverage of the latter two categories
