All Things Common Victor Peters, 1966-01-12 All Things Common was first published in 1966 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In Dr Peters study of the Hutterian Brethren commonly called Hutterites a group of devoutly religious farmers who have established many communal colonies in the midlands of the United States and Canada he first traces the historical development of the group and then describes in detail their way of life by focusing on the Manitoba colonies After their church was founded in Central Europe at the time of the Reformation the Hutterians moved slowly east until they settled in Russia where they lived for over one hundred years Then in the 1870 s they immigrated to America and settled in the Dakota Territory During World War I they fled to Canada under pressure of wartime hysteria Since they moved to Canada the Hutterians have encountered more problems but have successfully spread their colonies across the prairie provinces and back into the United States At present the Hutterians are the oldest and most successful community group in the history of western civilization They believe that their practice of Christian communism is in true harmony with the spirit and teachings of early Christianity Other aspects of their behavior such as the refusal to do military service and their disapproval of radio television dancing movies and cosmetics have made them a source of interest and concern to their neighbors The book is a thorough introduction to the Hutterians for the general reader and will be of special interest to historians theologians sociologists and economists

organization intends to enlighten the reader about the ways in which belief shapes personal and communal function Patterns of Polity is a comparative examination of church governance by bishops governance by elders and governance by congregations across contemporary branches of Christianity Patterns of Polity does not defend the validity of any particular polity but instead raises questions that are essential to all polities and to all communities How is power created and used In what ways are polities most likely to function well In what ways are polities susceptible to corruption and dysfunction How are conflicts adjudicated and finances handled

A World Within George Webber, 2005 When he found out that the Little Bow Hutterite Colony in southern Alberta was to be flooded upon completion of a nearby dam award winning documentary photographer George Webber visited the inhabitants He hoped they would allow him to photograph them at work and at play before their homes disappeared forever Over the next four years Webber witnessed and photographed gently and unobtrusively the daily life in the colony and finally its abandonment They welcomed him into their barns gardens kitchen dining room school and ultimately their church This mutual respect and affection is reflected in the remarkable photographs collected in *A World Within* The necessities of documentary photography are a good match for Webber s photographic methods and sensibilities He eschews the use of flash and prefers to work only with available light Webber s spare unstaged compositions reflect the simple lifestyle of the colony The speed of film he uses gives his images strong blacks and crisp whites the grainy greys adding warmth to each image The result is *A World Within* an exquisite collection of black and white photographs taken with an understanding sensitivity and spiritual connection that makes them exceptional A foreword on the history of Hutterites in Canada written by University of Alberta religion scholar David Goa and a series of excerpts from Webber s journals provide cultural context for the images
