Cody Phillips, 2005-08-15 CMH Pub 70 51 An update and expansion of the 1992 edition Prepared especially for Army personnel and their families and for historians Provides a guide to exhibits and artifacts in the Army museum system Also includes information about National Guard museums and historical holdings **The Oxford Companion to American Military History**, **Interpreting American Military History at Museums and Historic Sites** Marc K. Blackburn, 2016-04-08 Across the country museums and historic sites welcome visitors into a world long gone but fundamental to America today Military history in particular is etched into our country's culture and the public's imagination The trouble though for museums and historical sites lies in continuing to make it both accessible and relevant to today's audiences Through *Interpreting American Military History at Museums and Historic Sites* Marc K Blackburn tackles the difficult task of helping those institutions charged with the care of sites collections and stories that relate to our past relatable while still maintaining the dignity and reverence of their rich history Looking at the various components of American military history such as battles and famous figures Blackburn provides alternatives to the traditional museum experience The 21st century is a culmination of the past and it is more important than ever to remember and learn from the triumphs and failures and this guide provides and explains those strategies for making our stories and collections relevant to modern audiences This book acts as a primer for those unfamiliar with academic trends of the last forty years Historiography of American military history like that of other sub fields shifts as new information surfaces or as perspectives change Blackburn modernizes this area through new interpretative methods as well as through case studies of museums and historic sites that have created programs interpretive media outreach strategies and mission goals updated to meet the needs of today's patrons Armed with these strategies historic institutions will have the foundation to provide compelling relevant and engaging experiences for the 21st century audience *Atlas of American Military History* Stuart Murray, Media Projects, 2004 From the Battle of Bunker Hill to the Battle of Midway Guide to U.S. Army Museums R. Cody Phillips, 1997-08 **The US Military in Hawai'i** B. Ireland, 2010-10-29 An examination of how the US military in Hawaii is depicted by museum curators memorial builders film makers and newspaper reporters These mediums convey information and engage their audiences in ways that together form a powerful advocacy for the benefits of militarism in the islands **War Monuments, Museums and Library Collections of 20th Century Conflicts** Steve Rajtar, Frances Elizabeth Franks, 2015-07-11 This unique state by state directory covers monuments memorials museums markers statues and library collections that relate to the veterans weapons vehicles airplanes victims or any other aspect of war in which the United States participated While a site may have been created before 1900 such as a fort there must be some operational or historical tie to a twentieth century conflict to be included here General collections such as museums of aviation are included if they house materials related to a twentieth century conflict The coverage is so thorough that statues honoring veterans of

the Civil War appear if veterans of later wars are on their rosters of honorees Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston Texas For each site the following information is given street address phone number website and email address if applicable days and hours of operation admission fees other necessary information and a brief description of the site
