Between Dancing And Writing:

Between Dancing and Writing Kimerer L. LaMothe, 2004 This book provides philosophical grounds for an emerging area of scholarship the study of religion and dance In the first part LaMothe investigates why scholars in religious studies have tended to overlook dance or rhythmic bodily movement in favor of textual expressions of religious life In close readings of Descartes Kant Schleiermacher Hegel and Kierkegaard LaMothe traces this attitude to formative moments of the field in which philosophers relied upon the practice of writing to mediate between the study of religion on the one hand and theology on the other In the second part LaMothe revives the work of theologian phenomenologist and historian of religion Gerardus van der Leeuw for help in interpreting how dancing can serve as a medium of religious experience and expression In so doing LaMothe opens new perspectives on the role of bodily being in religious life and on the place of theology in the study of religion

Before, Between, and Beyond Sally Banes, 2007-05-25 Sally Banes has been a preeminent critic and scholar of American contemporary dance and *Before Between Beyond* spans more than thirty years of her prolific work Beginning with her first published review and including previously unpublished papers this collection presents some of her finest works on dance and other artistic forms It concludes with her most recent research on Geroge Balanchine s dancing elephants In each piece Banes s detailed eye and sensual prose strike a rare balance between description context and opinion delineating the American artistic scene with remarkable grace With contextualizing essays by dance scholars Andrea Harris Joan Acocella and Lynn Garafola this is a compelling insightful indispensable summation of Banes s critical career

Emerging Bodies Gabriele Klein, Sandra Noeth, 2014-04-15 The concept of worldmaking is based on the idea that the world is not given but rather produced through language actions ideas and perception This collection of essays takes a closer look at various hybrid and disparate worlds related to dance and choreography Coming from a broad range of different backgrounds and disciplines the authors inquire into the ways of producing dance worlds through artistic practice discourse and media choreographic form and dance material The essays in this volume critically reflect the predominant topos of dance as something fleeting and ephemeral an embodiment of the Other in modernity Moreover they demonstrate that there is

more than just one universal world of dance but rather a multitude of interrelated dance worlds with more emerging every day

Diversity, Affect and Embodiment in Organizing Marianna Fotaki, Alison Pullen, 2018-12-06 Bringing together research from critical diversity studies and organization theory this edited collection challenges unspoken norms and patterns of discrimination in organizational bodies The authors problematize the management of diversity by focusing on the differentiations between racialized aged gendered and sexed bodies By taking a fresh approach and placing the body at the forefront of power relations this thought provoking book seeks to challenge the homogenizing and oppressive dimensions of organizational governance structure and culture that deny bodily difference An insightful read for scholars of HRM diversity management and organization Diversity Affect and Embodiment in Organizing encourages an active approach to tackling discrimination and recognizes the diversity of embodied lives

Bodies of the Text Ellen W. Goellner, Jacqueline Shea Murphy, 1995 Dance and literary studies have traditionally been at odds dancers and dance critics have understood academic analysis to be overly invested in the mind at the expense of body signification literary critics and theorists have seen dance studies as anti theoretical even anti intellectual Bodies of the Text is the first book length study of the interconnections between the two arts and the body of writing about them The essays by scholar critics of dance and literature explore dances actual and fictional to offer powerful new insights into issues of gender race ethnicity popular culture feminist aesthetics historical embodiment identity politics and narrativity The general introduction traces the genealogy of dance studies in the academy to suggest why critical and theoretical attention to dance and dance s challenges to writing is both compelling and overdue A milestone in interdisciplinary studies Bodies of the Text opens both its fields to new inquiry new theoretical precision and to new readers and writers

[Deleuze and Futurism](#) Helen Palmer, 2014-10-23 This book is an original exploration of Deleuze s dynamic philosophies of space time and language bringing Deleuze and futurism together for the first time Helen Palmer investigates both the potential for creative novelty and the pitfalls of formalism within both futurist and Deleuzian linguistic practices Through creative and rigorous analyses of Russian and Italian futurist manifestos the

futurist aspects of Deleuze's language and thought are drawn out. The genre of the futurist manifesto is a literary and linguistic model which can be applied to Deleuze's work not only at times when he writes explicitly in the style of a manifesto but also in his earlier writings such as *Difference and Repetition* 1968 and *The Logic of Sense* 1969. The way in which avant garde manifestos often attempt to perform and demand their aims simultaneously and the problems which arise due to this is an operation which can be perceived in Deleuze's writing. With a particular focus on Russian zaum, the book negotiates the philosophy behind futurist nonsense language and how Deleuze propounds analogous goals in *The Logic of Sense*. This book critically engages with Deleuze's poetics ultimately suggesting that multiple linguistic models operate synecdochically within his philosophy.

Practice as Research In Performance and Screen presents a thoroughgoing exploration of the major fissures of established knowledge created by a new trans disciplinary worldwide project for the twenty first century. Focussing on the most fleeting and yet pervasive practices of the performance and screen arts it both documents and analyses the practical theoretical integration of hands on creative and scholarly methods of research. Through an innovative combination of manuscript catalogue and digital multi media formats it aims to embody the principles of performance and screen practice as research in its structure and design making book pages and DVD images mutually illuminating. With over fifty practitioner researcher contributors *Practice as Research* constitutes the most comprehensive presentation of this sometimes controversial and frequently fresh way of doing things with an imaginative convergence of artistic and scholarly processes.
