Between Generations The Soul Of A Ghost:

Between Generations Sandra Gayle,2002-10 **The Anthropology of Religion, Charisma, and Ghosts** Stephan Feuchtwang,2010 China has many religions But rituals of local temples are none of these They celebrate many gods and their powers to respond Gods are invited as welcome guests by appropriate rituals of welcome and communication Other rituals pacify ghosts and harmful powers These rituals are rich with their own poetry a poetry of performance not just of contemplation Interpreting this poetry demands revision of theories of ritual and religion The author has spent over four decades studying Chinese ritual and religion through observation in contemporary China and Taiwan constantly revising and rethinking theories of religion ritual and their role in different political regimes Book Jacket **The Monist** Paul Carus,1902 Vols 2 and 5 include appendices **Social Ghosts and the Dead of World History** Martyn Hudson,2023-04-07 Social Ghosts and the Dead of World History looks at the global phenomena of the dead in world history examining the phantasms and spirits of classical social science and philosophy From Hegel s World Spirit to Max Weber s Verstehen and Marx s phantasms there is a recurring obsession with the spirits of modernity This book explores the relationships and interactions between those spirits and materiality in five broad areas the nature of the dead in modernity shape shifting and mobile souls the spirit in accounts of prehistory and archaeology the phenomenology of spirits and the relation to statues and stone and the nature of spirit as it is manifested in wooden artefacts and folklore It offers a counter modernity to that of classical social science and philosophy and new ways of thinking about our crises and catastrophes in social theory and the world and the worlds beyond this world Building on the author s previous work on the sociology of haunted houses and landscapes it examines the body and the individual as the locus of haunting The book will appeal to academics in philosophy history social theory anthropology and cultural studies in its omni disciplinarity and in its import for rethinking the histories of social thought **The Theological Works** Charles Leslie,1721 *Notes on the spirit basis of belief and custom. (Rough draft).* sir James MacNabb Campbell,1885 **Your Light "the Evening and the Morning,"** Robert Henry Bowman,1915

Dreams, Vampires and Ghosts Louise Child,2023-07-13 Drawing from social theory and the anthropology of religion this book explores popular media s fascination with dreams vampires demons ghosts and spirits Dreams Vampires and Ghosts does so in the light of contemporary animist studies of societies in which other than human persons are not merely a source of entertainment but a lived social reality Films and television programs explored include Buffy the Vampire Slayer Twin Peaks Bram Stoker s Dracula Truly Madly Deeply and the films of Hitchcock Louise Child draws attention to how they both depict and challenge ideas and practices rooted in psychology while quality television has also facilitated a wave of programming that can explore the interaction of characters in complex social worlds over time In addition to drawing on theories of film from Freudian psychology and feminist theory Dreams Vampires and Ghosts uses approaches derived from a combination of Jungian film studies and anthropology that offer fresh insights for exploring film and television This book

Spectrality in the Novels of Toni Morrison Melanie R. Anderson,2013-03-30 At first glance Beloved would appear to be the only ghost story among Toni Morrison s nine novels but as this provocative new study shows spectral presences and places abound in the celebrated author s fiction Melanie R Anderson explores how Morrison uses specters to bring the traumas of African American life to the forefront highlighting histories and experiences both cultural and personal that society at large too frequently ignores Working against the background of magical realism while simultaneously expanding notions of the supernatural within American and African American writing Morrison peoples her novels with what Anderson identifies as two distinctive types of ghosts spectral figures and social ghosts Deconstructing Western binaries Morrison uses

the spectral to indicate power through its transcendence of corporality temporality and explication and she employs the ghostly as a metaphor of erasure for living characters who are marginalized and haunt the edges of their communities The interaction of these social ghosts with the spectral presences functions as a transformative healing process that draws the marginalized figure out of the shadows and creates links across ruptures between generations and between past and present life and death This book examines how these relationships become increasingly more prominent in the novelist s canon from their beginnings in *The Bluest Eye* and *Sula* to their flowering in the trilogy that comprises *Beloved* *Jazz* and *Paradise* and onward into *A Mercy* An important contribution to the understanding of one of America s premier fiction writers Spectrality in the Novels of Toni Morrison demonstrates how the Nobel laureate s powerful and challenging works give presence to the invisible voice to the previously silenced and agency to the oppressed outsiders who are refused a space in which to narrate their stories Melanie R Anderson is an Instructional Assistant Professor of American Literature at the University of Mississippi
