

**Exclusively Breastfeeding [UK Recommendation 1<sup>st</sup> 6 months]**

**Strict elimination of cow's milk containing foods from maternal diet**

Maternal daily supplements of Calcium and Vit D according to local recommendations  
Refer to dietitian - a maternal substitute milk should be advised  
An agreed Elimination Trial of up to 4 weeks - with a minimum of 2 weeks.  
If severe atopic dermatitis or more severe gut symptoms - consider soy/egg avoidance as well, only with specialist advice  
Mothers should be actively supported to continue to breastfeed through this period.

**No Clear Improvement**

**Clear Improvement - need to confirm Diagnosis**

**Formula Feeding or 'Mixed Feeding' [Breast and Formula]**

**Strict cow's milk protein free diet**

If symptoms only with introduction of cow's milk-based feeds - encourage & support return to breastfeeding. Mother can continue to consume cow's milk containing foods in her diet. If symptoms settle on return to full breast feeding, reconsider diagnosis if symptoms return on future milk exposure. If symptoms suspected from breastfeeding alone, see Box left.  
If **any** formula feeds are required, advise an eHF. Agree an Elimination Trial of up to 4 weeks (minimum of 2 weeks) and assess improvement. **Reintroduction of cow's milk is required to confirm diagnosis.** If **waned** - may need advice & support from dietitian. Only follow algorithm further in infants receiving eHF/on diagnostic elimination diet trial.

**Clear Improvement - need to confirm diagnosis**

**No Clear Improvement**

**But - CMA still suspected:**  
Refer to local paediatric allergy service

Consider excluding other maternal foods eg soy, egg only with specialist advice

**CMA no longer suspected:**  
Return to usual maternal diet  
Consider referral to local general paediatric service if symptoms persist. Visit [gahs.org.uk](http://gahs.org.uk) for advice about other infant feeding issues.

As likelihood of sufficient cow's milk protein passage into breast milk to trigger reactions is low, in breast fed cases, complete milk exclusion may not be required.

**Home Reintroduction [NICE Quality Standard]**  
Mother to revert to normal diet containing cow's milk foods over period of 1 week - to be done usually between 2-4 weeks of starting Elimination Trial

No return of symptoms  
**NOT CMA - normal feeding**

Return of symptoms

Symptoms do not settle

Exclude cow's milk containing foods from maternal diet again  
If symptoms clearly improve:  
**CMA NOW CONFIRMED**  
If top-up formula feeds should later be needed - eHF may well be tolerated. If not - replace with AAF

**Home Reintroduction [NICE Quality Standard]**  
Using cow's milk formula  
To be done usually between 2-4 weeks of starting Elimination Trial. Refer to IMAP reintroduction leaflet.

Return of symptoms

No return of symptoms  
**NOT CMA - normal feeding**

Support breastfeeding or if not possible, return to eHF again  
If symptoms clearly improve:  
**CMA NOW CONFIRMED**  
Ensure support of dietitian

Symptoms do not settle

**But - CMA still suspected:**  
Consider initiating a trial of an Amino Acid formula (AAF)  
Refer to local paediatric allergy service

**CMA no longer suspected:**  
Unrestricted diet again  
Consider referral to local general paediatric service if symptoms persist

Cow's milk free diet until 9-12 months of age and for at least 6 months - with support of dietitian  
**A planned Reintroduction or Supervised Challenge is then needed to determine if tolerance has been acquired**  
Performing a Reintroduction versus a Supervised Challenge is dependent on the answer to the question:  
**Does the child have Current Atopic Dermatitis or ANY history at ANY time of immediate onset symptoms?**

**No Current Atopic Dermatitis**  
And no history at any time of immediate onset symptoms  
(No need to check Serum Specific IgE or perform Skin Prick Test)  
**Reintroduction at Home - using a MILK LADDER**  
To test for Acquired Tolerance

And still no history at any stage of immediate onset symptoms  
**Reintroduction at Home - using a MILK LADDER**  
To test for Acquired Tolerance

**Current Atopic Dermatitis**  
Check Serum Specific IgE or Skin Prick Test to cow's milk

Negative Positive

**History of immediate onset symptoms at any time**  
Serum Specific IgE or Skin Prick Test needed

Negative Positive or  
Liaise with local Allergy Service Re: Challenge Tests not available

**Refer to local paediatric allergy service**  
(A Supervised Challenge may be needed)

\*Breast milk is the ideal nutrition for infants & hence continued breastfeeding should be actively encouraged as far as is possible. WHO recommends breastfeeding until 2 years and beyond. Mothers should be offered support of local NHS breastfeeding support services & signposted to further support. Please refer to IMAP patient information leaflet on supporting breast feeding.

### **Allergy In Primary Care Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Allergy In Primary Care has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Allergy In Primary Care has opened up a world of possibilities. Downloading Allergy In Primary Care provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Allergy In Primary Care has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Allergy In Primary Care. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Allergy In Primary Care. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Allergy In Primary Care, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit

vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Allergy In Primary Care has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
