Between The Spaces:

Between Spaces Joanne West, Mike Allison, 2014-06-21 A visual experience of poetry examining common occurrences that transcend the human condition The writings of educator Joanne West and the photography of Mike Allison blend to create a comforting trip through the past present and future A journey that defines who we were who we are and who we should be

Poetry by Joanne West Photography by Mike Allison **Spear Operators Between Banach Spaces** Vladimir

Kadets, Miguel Martín, Javier Merí, Antonio Pérez, 2018-04-16 This monograph is devoted to the study of spear operators that is bounded linear operators G between Banach spaces X and Y satisfying that for every other bounded linear operator $T: X \rightarrow Y$ there exists a modulus one scalar such that $G = T^{-1}T$ This concept extends the properties of the identity operator in those Banach spaces having numerical index one Many examples among classical spaces are provided being one of them the Fourier transform on L^1 The relationships with the Radon Nikod m property with Asplund spaces and with the duality and some isometric and isomorphic consequences are provided Finally Lipschitz operators satisfying the Lipschitz version of the equation above are studied The book could be of interest to young researchers and specialists in functional analysis in particular to those interested in Banach spaces and their geometry It is essentially self contained and only basic knowledge of functional analysis is needed
