The 'Evil Child' in Literature, Film and Popular Culture Karen J. Renner,2013-10-18 The evil child has infiltrated the cultural imagination taking on prominent roles in popular films television shows and literature This collection of essays from a global range of scholars examines a fascinating array of evil children and the cultural work that they perform drawing upon sociohistorical cinematic and psychological approaches The chapters explore a wide range of characters including Tom Riddle in the Harry Potter series the possessed Regan in William Peter Blatty s *The Exorcist* the monstrous Ben in Doris Lessing s *The Fifth Child* the hostile fetuses of Rosemary s *Baby and Alien* and even the tiny terrors featured in the reality television series *Supernanny* Contributors also analyse various themes and issues within film literature and popular culture including ethics representations of evil and critiques of society This book was originally published as two special issues of *Literature Interpretation Theory* *Horrorifying Children* Lauren Stephenson,Robert Edgar,John Marland,2024-03-07 *Horrorifying Children* examines weird and eerie children s television and literature via critical analysis memoir and autoethnography There has been an explosion of interest in the impact of children s television and literature of the late twentieth century In particular the 1970s 80s and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape Television of this period dominated the world of childhood entertainment drawing freely upon literature and popular culture like the *Garbage Pail Kids* and *Stranger Things* and much of it continues to resonate powerfully with the generation of cultural producers fiction writers screenwriters directors musicians and artists that grew up watching the weird the eerie and the horrific the essence of 21st century Hauntology In these terms this book is not about children s television as it exists now but rather as it features as a facet of memory in the 21st century As such it is the legacy of these television programmes that is at the core of *Horrorifying Children* The haunting of adults by what we have seen on the screen is crucial to the study This collection directly addresses that which scared us in the past inasmuch as there is a correlation between individual and collective cultural memory with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework [Natoma](#)
