Beyond Conversion:

Beyond Conversion and Syncretism avid,,Miles Richardson,2011-10-01 The globalization of Christianity its spread and appeal to peoples of non European origin is by now a well known phenomenon Scholars increasingly realize the importance of natives rather than foreign missionaries in the process of evangelization This volume contributes to the understanding of this process through case studies of encounters with Christianity from the perspectives of the indigenous peoples who converted More importantly by exploring overarching general terms such as conversion and syncretism and by showing the variety of strategies and processes that actually take place these studies lead to a more nuanced understanding of cross cultural religious interactions in general from acceptance to resistance thus enriching the vocabulary of religious interaction The contributors tackle these issues from a variety of disciplinary perspectives history anthropology religious studies and present a broad geographical spread of cases from China Vietnam Australia India South and West Africa North and Central America and the Caribbean

Beyond Conversion Paul W. Powell,1977-01-01 *A New Model of Religious Conversion* Ines W. Jindra,2014-02-06 Based on the analysis of 52 conversion narratives to various religious groups A New Model of Religious Conversion utilizes case studies for comparison of converts backgrounds network influence and conversion narratives The author convincingly illustrates a fit between the converts background and the religion they convert to such as between disorganized family backgrounds and highly structured religions Conversely those from highly structured backgrounds often convert to more open groups The book also makes it clear that not all conversions are influenced by networks or align themselves with a social constructivist view of a conversion as an account Taking converts trajectories seriously the author makes a strong case for the application of biographical sociology to the study of conversion and American sociology overall
