*Beyond Postmodernism* Klaus Stierstorfer, 2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

*Beyond Postmodernism* Christopher K. Brooks, 2014-07-03 *Beyond Postmodernism* *Onto the Postcontemporary* is a collection designed to provide the reader with an alternative to viewing the world through the lens of Postmodernism Contributors to this collection utilize and define such critical tools as transhumanism post post theory posthumanism and postcontemporary theory Other essays focus on interpreting texts or genres yielding impressive conclusions that were beyond the scope of postmodern discourse Eclectic in nature while examining works as diverse as Julia Ward Howe's *The Hermaphrodite* and Salman Rushdie's *Satanic Verses* yet unified in a commonsensical statement that postmodernism has perhaps ruled too long in critical discussions this collection is also designed to attract those seeking or awaiting something new in critical methodology to consider joining in the postcontemporary dialogue

*Beyond Postmodernism* Klaus Stierstorfer, 2003 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

**After Postmodernism** Christopher K. Coffman, Theophilus Savvas, 2020-12-17 Several of American literature's most prominent authors and many of their most perceptive critics and reviewers argue that fiction of the last quarter century has turned away from the tendencies of postmodernist writing Yet the nature of that turn and the defining qualities of American fiction after postmodernism remain less than clear This volume identifies four prominent trends of the contemporary scene the recovery of the real a rethinking of historical engagement a preoccupation with materiality and a turn to the planetary Readings of works by various leading figures including Dave Eggers Jonathan Franzen A M Homes Lance Olsen Richard

Powers William T Vollmann and David Foster Wallace support a variety of arguments about this recent revitalization of American literature The chapters in this book were originally published as a special issue of the journal Textual Practice

**After Postmodernism** Jose Lopez,Garry Potter,2005-03-01 What comes after postmodernism A buzzword which began as an energising radical critique became by the 20th Century s end a byword for fracture eclecticism political apathy and intellectual exhaustion The last few years have seen a growing interest in critical realism as a possible alternative way of moving forward The virtues of critical realism lie in its successful provision of a philosophical grounding for the social sciences and humanities and of a methodology applicable to many different fields of analysis After Postmodernism brings together some of the best known names in the field to present the first truly interdisciplinary introduction to critical realism The book presents the reader with a compendium of accessible essays illustrating the connection between meta theory theory and substantive research across Sociology Philosophy Literary Studies Politics Media Studies Psychology and Science Studies The flexibility of critical realism is illustrated in the range of topics discussed ranging from quantum mechanics to cyberspace to literary theory nature smoking the future fo Marx the unconscious and of

Postmodernism and After Regina Rudaitytė, 2008 The present collection of academic articles is an attempt to reflect on new openings and recent developments in literature literary theory and culture which seem to point beyond postmodernism and register a return to traditional concepts theoretical premises and authorial practices Interestingly enough forty years after the publication of John Barth's seminal essay 'The Literature of Exhaustion' 1967 the book is trying to diagnose the exhaustion of postmodernism which was predicted by David Lodge already two decades ago It also attempts to trace the signs in contemporary literature indicating that postmodernism is past its heyday that it is losing or has lost its shine fascination and attraction and that writers have been turning to the old or pre modern forms practices and strategies Herbert Grabes's comprehensive and illuminating article 'From the Postmodern to the Pre Modern More Recent Changes in Literature Art and Theory' which opens and sets the tone for this collection of essays is a major assessment of new developments in literary culture focusing on the evolution of the postmodern to the premodern mode it also highlights the role and current popularity of cultural studies and cultural history theoretical movements which have been prevailing for some time now after the end of deconstruction The articles assembled in this collection are on diverse thematics and written from diverse theoretical perspectives they differ in scope and methodology and their focus ranges from the postmodern intertextual aspect to the open questioning of it and to more recent developments in the literary culture Focusing on literary icons like A S Byatt John Banville Margaret Atwood Umberto Eco Vladimir Nabokov but also extending into a less known regions geographically as well they invite reconsideration and reconceptualization of such key notions as truth meaning

production textuality and literary interpretation This book aims at opening fresh discussion debate and reflection on the new age reaching beyond postmodernism and the budding literary mode whatever labels we might stick to it **Succeeding Postmodernism** Mary K. Holland,2013-04-25 While critics collect around the question of what comes after postmodernism this book asks something different about recent American fiction what if we are seeing not the end of postmodernism but its belated success **Succeeding Postmodernism** examines how novels by DeLillo Wallace Danielewski Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation and possible ways of resisting the disaffected solipsism bred by that culture Ultimately it finds that twenty first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean it finds that novels today offer language as solution to the problem of language Thus it suggests a new way of reading antihumanist late postmodern fiction and a framework for understanding postmodern and twenty first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature

**Alasdair Gray's "Lanark. A Life in Four Books". A truly postmodern work?** Hedy Mühleck,2020-02-26 Seminar paper from the year 2011 in the subject English Language and Literature Studies Literature grade 1 3 University of Heidelberg Anglistisches Seminar course Postmodernism Theory and Fiction language English abstract This paper aims to show how Alasdair Gray s famous first novel Lanark fits the postmodern label Although Alasdair Gray has often been considered the postmodern Scottish writer par excellence he does not necessarily fit that description nor does he intend to fit it In this paper I will try to show how his famous Lanark A Life in Four Books lives up to a postmodern label and where it differentiates from it For this purpose I will begin with an outline of the concept of postmodern paying special attention to developments in Great Britain This outline can by no means provide a definition and shall only serve as defining guideline to which I will then compare the most striking aspects of Lanark after giving a brief overview of its structure and the progress of its development

*Religion After Postmodernism* Victor E. Taylor,2008 In this critical examination of the role of the imagination in the modern and postmodern periods Victor E Taylor looks at the fable as a narrative form that addresses the ultimate questions of how to live and why He assesses various literary theories and styles in the wake of postmodernism to reveal the ways in which fable style narrative can be a meaningful genre for addressing traditional and post traditional religious ethical and epistemological concerns In the process Taylor draws on key figures across the humanities from Mircea Eliade and Claude L vi Strauss Paul Ricoeur and Slavoj Zizek to Leo Tolstoy and Franz Kafka Placing an emphasis on rethinking the importance of critical theory in religious studies the author argues that a new more demanding formulation of the concept of possibility allows for a realignment of the philosophical mythological and literary imaginations By returning to the history of philosophy myth studies and modern literature Taylor makes a renewed case for the significance of a distinctive formulation of religious theory as a desire for thinking Religion after Postmodernism calls for a reconsideration of theory as thinking for the future of philosophy religious studies and literature

*Language Beyond Postmodernism* Eugene Gendlin,1997-08-20 Eugene Gendlin s contribution to the theory of language is the focus of this collection of essays edited by David Michael Levin This compilation of critical studies each followed by a comment from Gendlin himself investigates how concepts grow out of experience and explores relations between Gendlin s philosophy of language and experience and the philosophies of

Wittgenstein Dilthey and Heidegger      **For a Radical Higher Education After Postmodernism** Richard K. S. Taylor, Jean Barr, Tom Steele, 2002 This book is a forceful restatement of the classic Left analysis of both the shortcomings and radical potential of higher education In an age of soft focus sound bite New Labour politics such a restatement is badly needed The authors take no prisoners in their critique of postmodernism as an empty and conformist discourse that inhibits radical action Not everyone will agree with this book but everyone should read it Peter Scott Vice Chancellor Kingston University This is a timely and challenging work The contemporary debate about the purposes of higher education needs to be refocused on the transmission of values as well as the utility of skills on its emancipatory as well as its instrumental roles in modern society This book should be read by students and their teachers as well as by policy makers and their pay masters David Watson Director University of Brighton In the age of globalization made real by postmodernist ideology this is a very important and timely contribution to the debate on higher education policy and purposes Adult Education Quarterly Higher education is being transformed not least because of its rapid expansion What should be the priorities objectives and purposes of this new higher education Much current policy development for universities and colleges is implicitly based on postmodernist ideas For a Radical Higher Education explores these postmodernist approaches through social and political theory philosophy cultural studies and feminism and proposes radical alternatives It argues that although postmodernism has provided useful insights and corrections to other frames of reference it leads often to a reactionary and conformist position Its emphases on relativism consensus and apolitical cynicism in relation to all progressive perspectives effectively gives support to those who see higher education increasingly incorporated into technicism and free market cultures In contrast this book argues for a revitalized and radical university characterized by critical sceptical enquiry tolerance and a commitment to humanistic egalitarian politics      **Agency After Postmodernism** David Gary Shaw, 2001
