Beyond Anger And Longing Community And Development In Atlantic Canada:

Beyond Anger and Longing Berkeley Fleming,1988 **Urban and community development in Atlantic Canada, 1867-1991** ,1993-01-01 This book offers the first comprehensive overview of community development for the Atlantic Provinces The authors take a collaborative approach to their research question and contribute more than just a survey on urban development They also create a framework for understanding the relationship between the development of towns and cities in Atlantic Canada and in other parts of the country Published in English *Beyond Anger and Longing* Mount Allison University. Centre for Canadian Studies,1988 *Social Policy and Practice in Canada* Alvin Finkel,2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty *Urban and Community Development in Atlantic Canada, 1867-1991* Carleton University. History Collaborative,Canadian Museum of Civilization,1993 This book which arose from a graduate seminar in Maritime history in 1991 92 offers the first systematic and comparative overview of community development for the entire Atlantic region The book assesses the published census returns from Confederation to the present to track the growth and development of each town and city in the region and surveys aspects of the region s political economy since Confederation paying close attention to the rise and fall of an industrial core and the emergent dependencies that were being reshaped by the expanding of government in determining the fate of Atlantic Canada A typology of community experiences is followed by a reflection on the consequences for the contemporary urban scene of political and economic transformation **Acadiensis** ,2005 *Louis J. Robichaud* Donald J. Savoie,2026-02-27 Louis J Robichaud the first elected Acadian premier of New Brunswick transformed an inward looking province with an ingrained aversion to change into a vibrant modern society now home to strong political administrative and educational institutions Donald Savoie draws a portrait of adroit political leadership and of a man who

recognizing his province's need for modernization rose unwaveringly to the demands of office and ushered in profound and enduring change for Acadians and for all New Brunswickers. In a timely biography informed by a long friendship between fellow Acadians Savoie contrasts the challenges of governing New Brunswick in the 1960s with those faced by governments and political leaders today to better understand the magnitude of Robichaud's accomplishments over a ten-year span. Leading a province with a long history of intolerance towards minority groups, notably Acadians, Robichaud's Liberal government confronted the dominant Anglo-Protestant political class and introduced reforms that included the Official Languages Act, broader access to education for francophones, the establishment of the Université de Moncton, and initiatives in regional and natural resource development, health care, and equitable public services across the province's disparately funded urban and rural counties. Seismic changes at the time these reforms are now woven into the social fabric of New Brunswick. Informative and lively, Louis J. Robichaud argues convincingly that while the premier's achievements can be viewed as specific to his era, his political fortitude and vision are a model for politicians, legislators, and civil servants today.

The Routledge

Handbook of Comparative Rural Policy Matteo Vittuari, John Devlin, Marco Pagani, Thomas G. Johnson, 2019-10-16. This volume represents the result of almost two decades of trans-Atlantic collaborative development of a policy research paradigm: the International Comparative Rural Policy Studies program. Over this period, dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America, Europe, and other parts of the world. A core element of the book is the idea and practice of comparative research and analysis: what can be learned from comparisons, how and why policies vary in different contexts, and what lessons might or might not be transferable across borders. It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions. It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts. The book largely adopts a territorial approach to rural policy. This means the book is more interested in rural regions, their people, and economies and in the policies that affect them than in rural sectors and sectoral policies per se. The audience of the book is, by definition, international and includes students attending courses in agricultural and rural policy, rural and regional studies, and natural resource management; lecturers seeking course material and case studies to present to their students in any of the courses listed above; professionals working in the field of rural policy; policy makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale; and to better recognize and comprehend how to transfer best practices.
